

COVID-19 STATEMENT GUIDELINES & PROCEDURES

At Ocean Drive Limousines & Transportation our priority remains with the safety and well-being of all passengers onboard. We understand travel can seem a bit different during these times, yet we want to ensure peace of mind for those who ride with us currently and in the near future. We have implemented several guidelines recommended by the CDC along with added sanitation procedures.

For Airport Transfers we have suggested curbside request for those passengers that do not require luggage assistance, this service ensures a swift pick up with minimal contact. Traditional meet and greet service remains standard along with any airport greeters required for group travel.

Our chauffeurs are required to wear face mask for everyone's safety. We kindly ask that we all practice social distancing when possible and recommend when traveling with larger groups we reduce the current vehicle capacity by 50%. Your chauffeurs will continue to assist with opening and closing of the vehicle doors along with assistance of any bags or luggage. If you wish to decline the handling of your items, you can simply advise.

Complimentary amenity care kits are available onboard, each kit includes a face mask, a pair of disposable gloves, antibacterial wipe and hand sanitizer. These kits help us create a safer experience for everyone.

We have increased our daily vehicle sanitation protocol to include multiple vehicle disinfecting between all passenger changes. This includes, but is not limited to, all handles, power switches and door storage areas, windows, cup holders, and as it applies to children, car seats.

Along with our disinfectant sanitation wipes we are adding an extra layer of protection by utilizing Vitula Biocide, the safest and most effective EPA Approved, non-toxic hospital grade disinfectant which has been certified by the CDC for use against SARS-CoV-2, the coronavirus that causes COVID-19 that will be the most effective method in sanitizing our vehicles on a daily basis. Data Sheet available upon request.

By implementing these added measures, we continue to provide the upmost professional service we have know to do for the past two decades. We are here to assist you, should you require any further information or would like to submit a special request, please feel free to **contact us!**
