

# Christine Burkette, B.S., M.S., M.Ed

Technology Executive | AI Strategist | Keynote Speaker

*“AI will not replace the workforce.  
But leaders who fail to prepare their workforce  
for AI will replace their own success.”*

*Christine Burkette*

## About

Christine Burkette is a technology executive, innovation strategist, and keynote speaker specializing in artificial intelligence, digital transformation, and workforce readiness. With nearly 20 years of leadership experience across government, education, and enterprise environments, she helps organizations navigate complex technology systems while preparing their workforce for the future of work.

She is recognized for bridging the gap between technology strategy, systems integration, and human-centered innovation, ensuring organizations adopt AI in ways that strengthen both operations and people.

## Speaking Highlights

- 2024 Women of the Year in Technology
- Digital Equity Trailblazer Award – National Digital Inclusion Alliance
- Former Chief Information Officer, Detroit Public Schools Community District
- Former Director of Digital Equity, City of Detroit
- Creator of Detroit’s Digital Equity GIS Mapping Initiative

## Keynote Topics

### AI & Workforce Transformation:

How leaders prepare their workforce for an AI-driven future while protecting institutional knowledge.

### Technology Strategy & Digital Transformation:

Lessons from large-scale technology leadership on aligning infrastructure, people, and systems.

### Closing the Digital Divide in the Age of AI:

How organizations expand digital access while preparing individuals for technology-driven careers.

## Innovation Leadership

Christine is also the founder and developer of several technology initiatives focused on innovation and digital access:

### CareLink Senior Support Platform

A mobile platform designed to help seniors and caregivers access services, digital tools, and community resources.

### 5Fs to Love Compatibility App

A digital relationship compatibility application designed to support self-discovery and relationship insights.

## Speaking Formats

Christine delivers both keynote presentations and interactive leadership sessions designed to provide practical strategies organizations can implement immediately.

### Christine is available for:

- Keynote Presentations
- Executive Leadership Forums
- Conference Panels
- Interactive Workshops

## Professional Leadership

### Founder & CEO, Promising Integrations Consulting Firm, Inc.

AI & IT consulting, systems integration, and technology strategy advisory for corporate, government, and education systems.

### Founder, Michigan Youth STEM, Tech & Aeronautics

A nonprofit workforce development initiative connecting education to STEM, technology, and emerging career pathways.

### Founder & CEO, SCE Sustainable Industries, LLC

A circular sustainability company developing advanced textile recycling solutions to reduce waste and support sustainable clothing manufacturing (La’ Merde LUX Athleisure Wear).
