

Women's Issues

A Sermon by Bishop Andy C. Lewter

During this month
that celebrates
women I would
like to take a look
at an
unnamed but
prominent woman
in the Gospels

Again, we are never told her name but what we do know is that she had issues

**Maybe it is good
that we do not
know her name
that way all of us
can identify with
what she is going
through**

Her Bible address is Matthew 9:20 which is a more condensed version compared to Mark 5

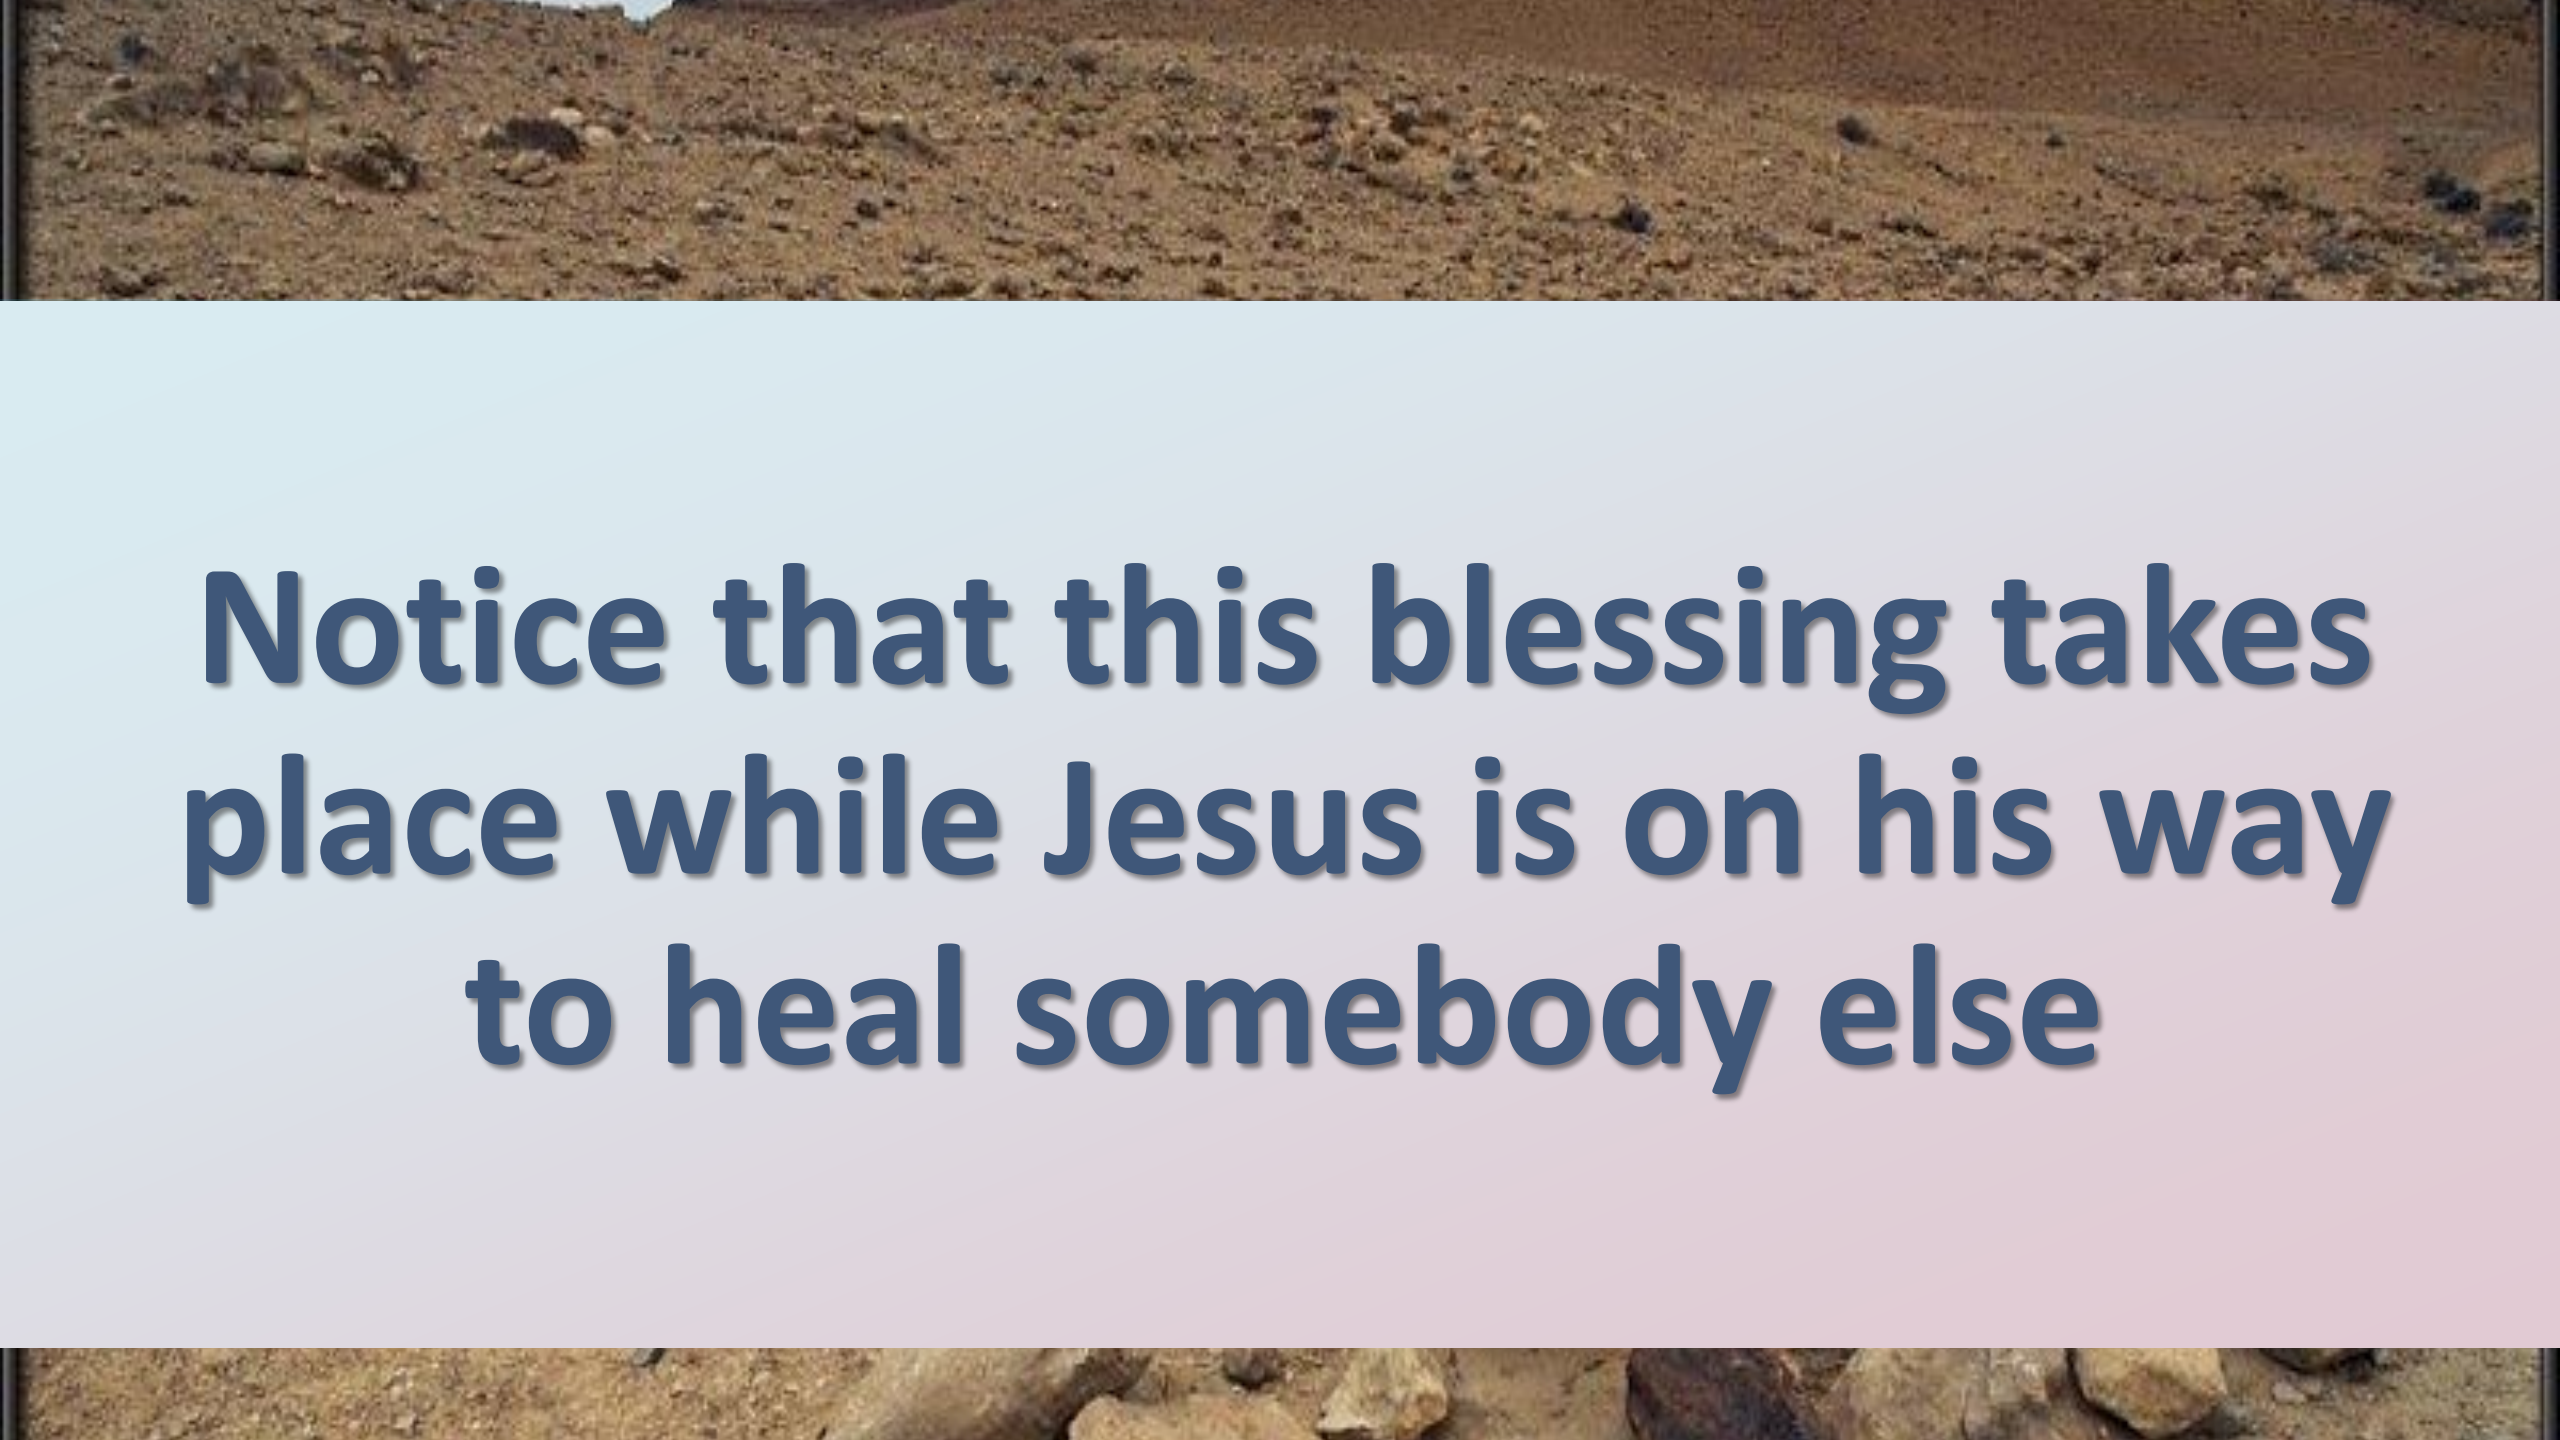

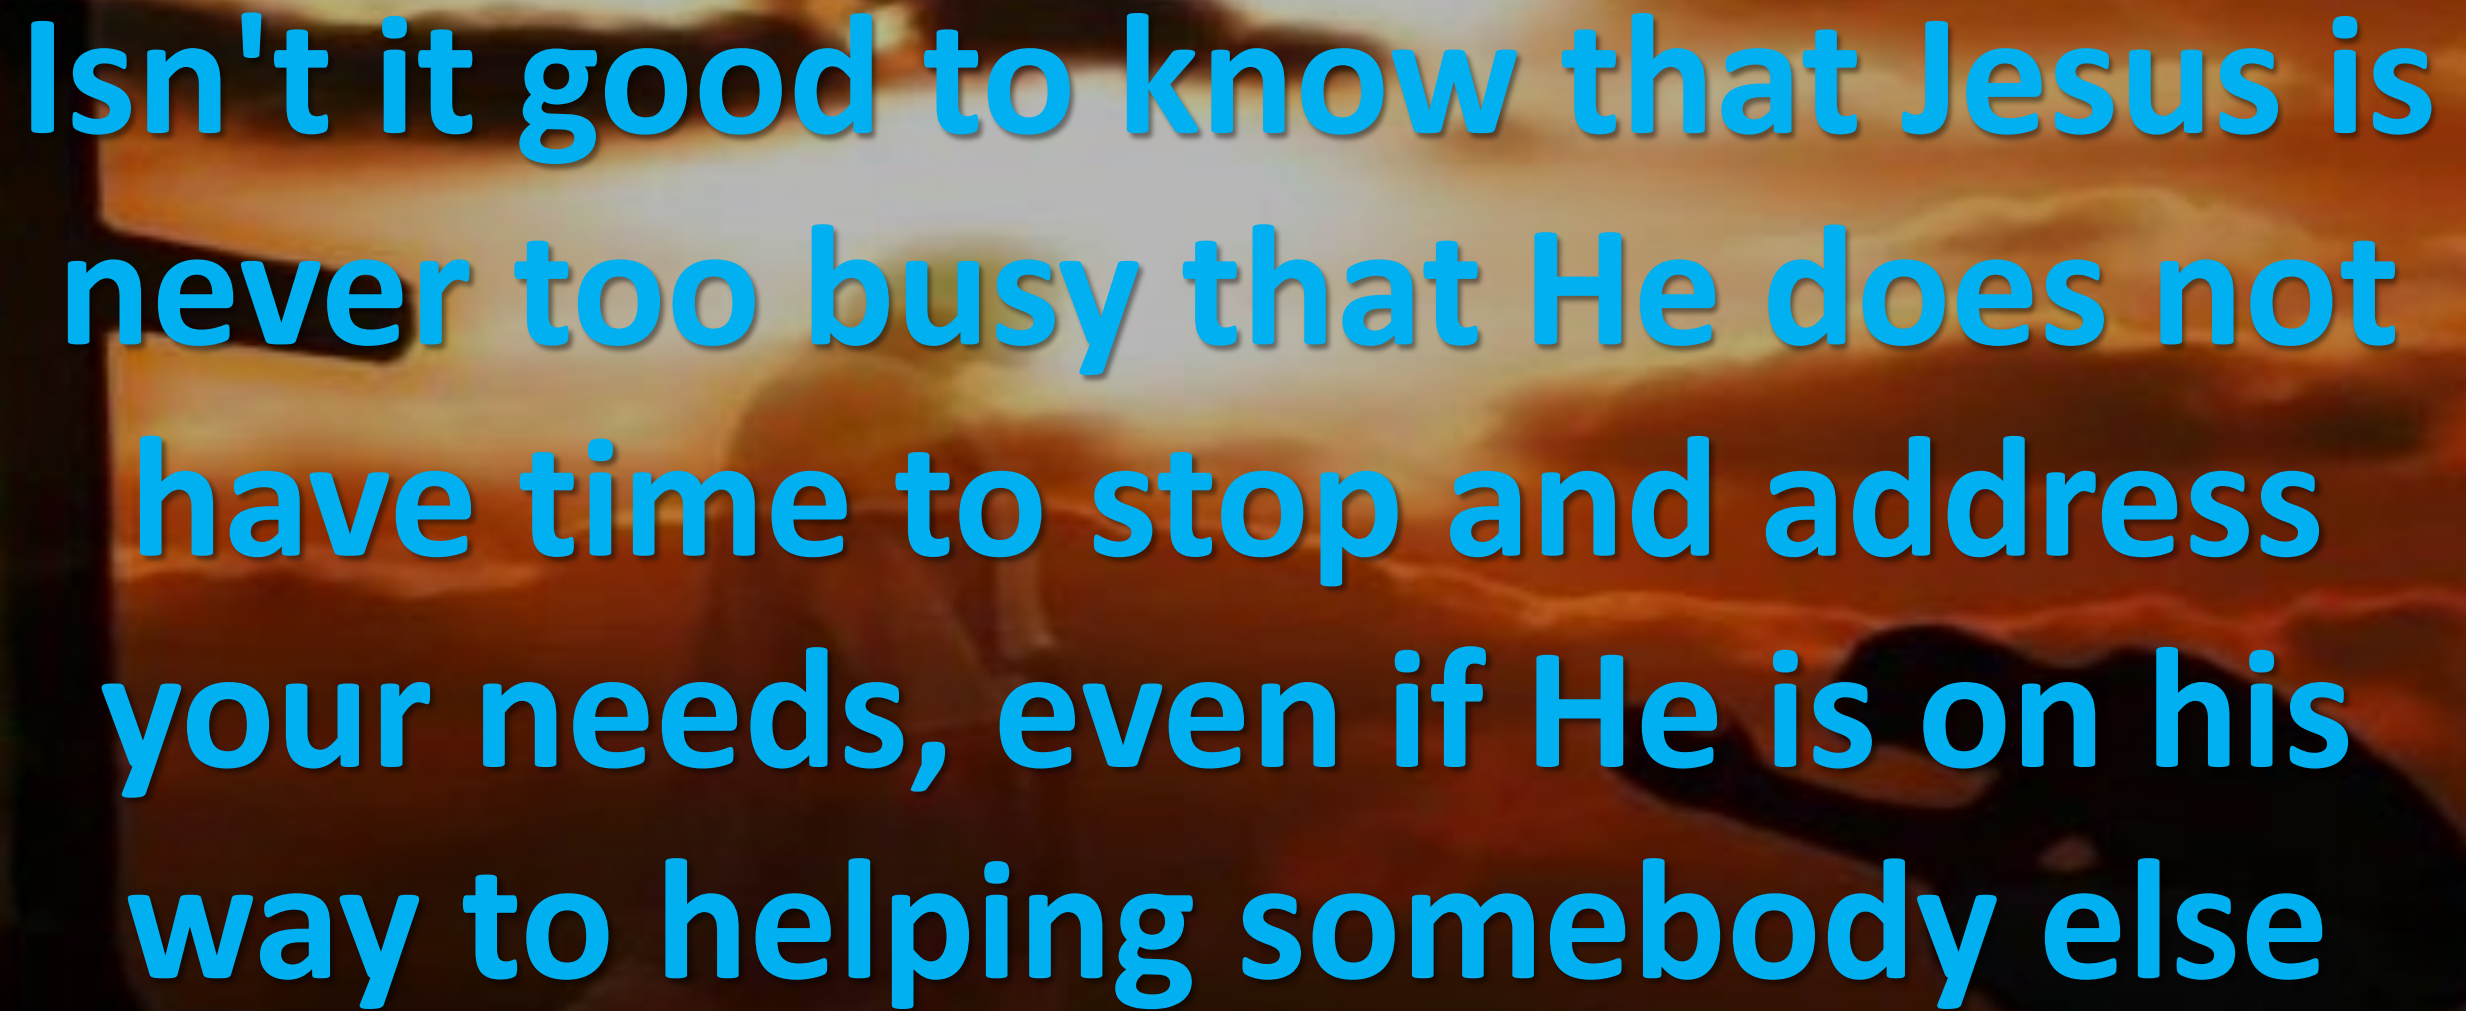

20 And suddenly, a woman who had a flow of blood for twelve years came from behind and touched the hem of His garment. **21** For she said to herself, “If only I may touch His garment, I shall be made well.”

22 But Jesus turned around, and when He saw her He said, “Be of good cheer, daughter; your faith has made you well.” And the woman was made well from that hour.

Notice that this blessing takes place while Jesus is on his way to heal somebody else

Isn't it good to know that Jesus is never too busy that He does not have time to stop and address your needs, even if He is on his way to helping somebody else

The background is a gradient of blue and purple, featuring glowing musical notes and a treble clef. The notes are in shades of blue and green, and the treble clef is a bright blue. There are also some starburst effects and bokeh lights scattered throughout.

***While on others thou art calling, do
not pass me by***

Give her credit for even appearing in public!

If blood is the metaphor for sin then I
say don't let your sins keep you at home

It is not as though the woman had not tried to get healed. The text says she suffered many things of many doctors

**It is only when we have exhausted
every other option do we realize
that when we have tried the rest,
it is time to try the best**

J E  U S

**Finally, it was not any medicine that
healed her but her faith in Jesus**

**Jesus says,
"thou faith has
made thee whole"**

**From that day
on she was not
only healed but
made whole**

She came for a healing but left whole

The Pushcart of Healing, A tribe called Karbis lives In a remote village called Rongphar in Assam, India

Thank you!
