

EmpowerPix Readiness Program

AI PATHWAYS

Digital Equity. Future Readiness.

OVERVIEW

AI Pathways is a future-focused workshop where graduating seniors learn how to use AI for life planning, problem-solving, and building confidence in their next steps.

HIGHLIGHTS

- Introduces foundational AI literacy
- Helps students envision their futures
- Builds equity in access to digital tools

1 What is it?

- An interactive workshop that equips students with AI literacy, showing them how to use AI tools for life and career planning, reflection, and confidence-building.

3 What will change?

- Students leave not just with recognition, but with readiness, a plan for their next chapter and confidence using AI as a supportive tool.

2 How does it work?

- Students input their ambitious goals, strengths and stories, and generate an AI-powered Next Steps Guide tailored to their future.

4 When will it happen?

- Program begins 2026. Workshops offered annually in spring/summer.
