OVERVIEW

At PajeetCoin, our top priority is creating a platform where you can participate in making the world a better place for Pajeet. Before we even began to tackle topics like tokenomics or marketing plans, we asked ourselves questions about what we represent, what will remain essential to our identity as we grow, and how we can reward Pajeets for their part in saving our village.

As the name suggests, when we initially approached this idea, we knew we wanted to work towards protecting Pajeets all around the globe. Due to the extent of man-made rug-pulled, bad memes, no bobs and vegana, and more, the majority of Pajeets are already teetering dangerously on the edge of bankruptcy

MISSION

We recognize that Pajeets who share our world serve as a barometer for Pajeets health, and so we set our sights on how to tackle the larger issues at hand. None of us, Pajeets included, have a chance at long term survival if drastic measures are not taken to reverse the effects of ' Stupid Pajeets '.

This is why we have devoted ourselves to giving individuals the power to protect and preserve Pajeets. We at PajeetCoin will not rest until we have created a platform which can be used as a robust and dynamic tool in the fight to protect Pajeets for generations to come.

SO WHAT ARE WE ACTUALLY?

Within our roadmap, we have a long term vision to build a utility ecosystem around PajeetCoin so in the end we could create a use case such as NFT with charity mechanism , so we can give back to the underprivileged Indian society.
