Concrete Mounting Brackets & Skirts

Concrete Surface Mounting Brackets & Cover Skirts

Royal Rock and Royal Grain can be installed on top of an eight inch minimum width, poured concrete wall or on a flat concrete surface. Our concrete mounting brackets are made with heavy steel plates and have vertical members.

They attach to the concrete with wedge anchors and are bolted to the posts. Mounting brackets are available for line, end, corner, and gate posts. Decorative skirts are used to cover the plates and anchor bolts for a finished look.

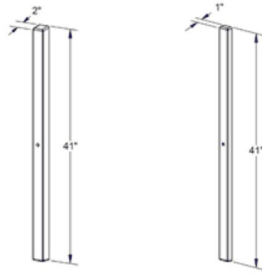

Minimum bolt size
1/2" by 4.5"

For 3'H 4'H 6'H		CMB-6-LP	24"H Concrete Mounting Bracket 8"x5" Base Plate	12 lbs
