

# THE SENTINEL FAMILY

EXPAND YOUR FLEET WITH THE ULTIMATE MODULARITY

AN  **ADDCO** PTS-2000™ PRODUCT

MADE IN   
**USA**

The Sentinel is a complete family of uniquely interchangeable portable traffic signal and intelligent traffic control products. Each system in the Sentinel line can be configured with various hardware and Galaxy® controller models for a wide range of applications, such as:

- » Portable Traffic Signal
- » Automated Flagger Assistance Device (AFAD)
- » Driveway Assistance Device (DAD)
- » Knockdown Replacement Pole
- » Pedestrian Crossing Signal
- » Headless Relay (for mountainous terrains)

The Sentinel's innovative modular mast and universal mounting plates enable it to be mounted to a variety of bases for easy transport and movement within a work zone:

Towable Type 4 Trailer

Compact Wheeled Base

Concrete Barrier

Truck Bed

## CUSTOMIZE YOUR SENTINEL

With the Complete Range of Options

The Sentinel can be configured for a wide range of applications with the exact features you need. It's easy to customize your Sentinel to expand your fleet!

### STEP 1: CHOOSE YOUR SIGNAL TYPE

Each Sentinel signal type includes specific components and an easy-to-use Galaxy Controller with functionality for that application. Specialty controllers can be upgraded to the full Galaxy Controller functionality, if desired.

SIGNAL TYPE:	Portable Traffic Signal	AFAD	Driveway Assistance Device (DAD)	Knockdown Signal Replacement	Pedestrian Signal	Headless Relay
						
SIGNAL HEAD:	Red, Yellow, Green	Red, Yellow	Directional Arrows, Red Solid Center	Red, Yellow, Green	Pedestrian Signal with Countdown	None
CONTROLLER:	Galaxy Controller (16-phase)	Galaxy AFAD Controller (Flagger Functions)	Galaxy DAD Controller	Galaxy Wireless Signal Interface System –connects to street corner controllers	Galaxy Pedestrian Controller	Galaxy Relay Controller

### STEP 2: CHOOSE YOUR BASE

The Sentinel can be configured on the following bases to enable easy transport, movability and use within your work zone. The Sentinel features a modular mast and universal mounting plates that allow the signal head/mast to be attached to different bases for future fleet flexibility.

Type 4 Towable Trailer

Wheeled Base

Barrier Mount

Truck Mount

### STEP 3: CHOOSE YOUR OPTIONS

Select from a full range of optional features, upgrades and accessories. If you need a specific feature, we can provide it!

- » Solar recharging
- » Bank of 4 batteries
- » Outrigger jacks
- » Intrusion alarm
- » Flagger notification sensors
- » Work lights (LED spotlights)
- » Camera mounts
- » Advanced configurator handheld unit
- » Additional remote controls
- » Galaxy Direct Remote Monitoring
- » Traffic counters/analysis
- » And more
