- Taught the CompTIA A+ (A Plus) computer certification for PC Age students.
- Lead instruction and student assessment, ensuring students are working toward the competencies of course level and program learning outcomes.
- Maintained, developed and continuously improved classroom-based learning content, lab projects and assessments.
- Responsible for classes of up to 10-20 students.
- Facilitated ‘real world’ scenario training, providing students with hands-on education
- Provided students with the education and skills they need to obtain the most important and recognized industry certifications and a new career in the technology industry.
- Provided hands-on instruction as prescribed in the syllabus.
- Prepared daily curriculum, quizzes, and tests for students.
- Answered students’ questions concisely and accurately.
- Submitted student progress reports upon class completion

Information Technology Instructor

Technical Institute of America, New York, NY

March 2021 – August 2021

- Teach the CompTIA A+ (A Plus) computer certification for TIA students.

KHALED ZAYED, PH.D.

Continued

- Lead instruction and student assessment, ensuring students are working toward the competencies of course level and program learning outcomes.
- Maintained, developed and continuously improved classroom-based learning content, lab projects and assessments.
- Facilitated ‘real world’ scenario training, providing students with hands-on education
- Provided students with the education and skills they need to obtain the most important and recognized industry certifications and a new career in the technology industry.
- Prepared daily curriculum, quizzes, and tests for students.
- Answered students’ questions concisely and accurately.

Information Technology Instructor

Avtech Institute of Technology, South Plainfield, NJ

November 2019 – May 2020

- Taught the CompTIA A+ (A Plus) computer certification for Avtech students.
- Lead instruction and student assessment, ensuring students are working toward the competencies of course level and program learning outcomes.
- Maintained, developed and continuously improved classroom-based learning content, lab projects and assessments.
- Facilitated ‘real world’ scenario training, providing students with hands-on education
- Provided students with the education and skills they need to obtain the most important and recognized industry certifications and a new career in the technology industry.
- Provided hands-on instruction as prescribed in the syllabus.
- Prepared daily curriculum, quizzes, and tests for students.
- Answered students’ questions concisely and accurately.
- Submitted student progress reports upon class completion

August eTech

December 2019 – July 2020

Sr. IT Tech

- Manage IT Infrastructure and supervise junior IT support staff.
- Manage & Install Windows Server 2008 and 2012.
- Manage VOIP –Avaya IP Office, Microsoft Exchange & Admin Portal, Office 365
- Responsible for managing IT Security Awareness Training and E-Mail Phishing Alert Training
- Installing, administering, & troubleshooting 10, MS Office Suite 2010, 2013, 2016 & Computer Imaging.
- Troubleshoot Mac, PC and Laptop hardware & software issues.
- Mobile Device Management through Maas 360
- Active Directory Users and Computers (ADUC) management.
- Group Policy Management and Active Directory DNS (ADDNS).
- VMWare and or/AWS – create, support, and manage virtual servers.
- Linux (CentOS/Red Hat, and Ubuntu) and gather information from logs.
- Knowledge of Network Administration, protocols and technologies.
- TCP/IP, DHCP, STP, VTP, IPsec. WLAN, VLAN, NAT, ACL, SSL, SSH, etc.
- Knowledge of Local Area Network (LAN) and Wide Area Network (WAN) troubleshooting skills.
- Servers, Switches, Routers, Firewalls, VPN, etc.
- Run CAT 5E and CAT 6 cables from office to server rooms, punch down and terminate keystone jacks
- Manage File Server access

UNION COUNTY COLLEGE

January 2018 – May 2019

Customer Service course for Business Majors (Online course)

- Teaching Customer Service course for business majors. The course examines the people, practices, and events that are needed in the field of customer service. The course includes an overview of customer service, discusses specific skills and related topics, and provides insight into future customer service trends and issues.

KHALED ZAYED, PH.D.

Continued

Teach the latest skills and techniques related to customer service. Teach the best way to service customers using various communication techniques and understanding the future of customer service trends and issues.

The Bridge Corporation

April 2019 – December 2019

Sr. IT Support Engineer

- Supervise junior IT Support Staff.
- Manage VOIP – RingCentral, Avaya IP Office, Cisco Call Manager Express, McAfee Admin Portal (Anti-Virus and Encryption), Google G-Suite, Microsoft Admin Portal, Office 365
- Responsible for managing IT Security Awareness Training and E-Mail Phishing Alert Training
- Initiated social engineering, Phishing campaigns and training platforms through KnowBe4
- Designed due diligence policies in order to improve on cybersecurity risks.
- Installing, administer, and troubleshoot Windows 7, 8, and 10, MS Office Suite 2010, 2013, 2016.
- Responsible for IT training for all users and orientation for new users
- Troubleshoot Mac, PC and Laptop hardware & software issues.
- Mobile Device Management through Google Admin Portal.
- Troubleshoot PC and Laptop hardware issues and desktop imaging.
- Active Directory Users and Computers (ADUC) management.
- Group Policy Management and Active Directory DNS (ADDNS).
- VMWare and or/AWS – create, support, and manage virtual servers.
- Linux (CentOS/Red Hat, and Ubuntu) and gather information from logs
- Knowledge of Network Administration, protocols and technologies.
- TCP/IP, DHCP, STP, VTP, IPSec. WLAN, VLAN, NAT, ACL, SSL, SSH, etc.
- Knowledge of Local Area Network (LAN) and Wide Area Network (WAN) troubleshooting skills.
- Servers, Switches, Routers, Firewalls, VPN, etc.
- Manage & Install Windows Server 2008 and 2012 and Desktop imaging

Adjunct Faculty at the Business Department

UNION COUNTY COLLEGE

January 2017 – December 2018

Health Care Computer Basics

- Teaching basic computer concepts, the essentials of the Internet and Web including netiquette and email, copyright, privacy, and security are discussed. Microsoft Word and PowerPoint, the fundamentals of document processing and professional presentations. Students also learn to create, edit, and format an APA style report. Students have hands-on experience with a learning management system. The correct keyboard techniques and building keyboarding speed.

Princeton Radiology (Consultant)

December 2017 – April 2019

IT Support Engineer

- First level support for a wide range of IT systems and services.
- Support & enforcement of Information Security policies, standards and guidelines.
- Monitor security procedures, practices and policies within all corporate system environments.
- Standard desktops and peripherals deployment, support, repair, etc.
- Standard applications (office, email, internet, etc.) support.
- Radiology systems support (InteleViewer, PACS, and IntelePAC).
- Radiation oncology systems support.

- Coordinate vendor/escalated support as needed.
- Participate in other IT-department projects.
- Manage site specific Documents Escalations.
- Maintained Email Accounts and Distribution Lists in a Zimbra Administration Portal.
- Perform timely updates and tracking of assigned tickets in Internal ticketing system.

KHALED ZAYED, PH.D.

Continued

Chubb Insurance (Insight Global)

October 2017 – November 2017

Technical Support/ Exchange Administrator

- Provided Exchange (2007, 2013) administration support.
- Provided phone and onsite support to users in regard to Exchange, Office 365 & Outlook.
- Supported Mobile Devices (Android and iOS).
- Migrated users to Office 365 from Exchange.
- Resolved issues related to Office 365 migration.
- Managed site-specific Documents Escalations.
- Maintained Email Accounts in a Windows 2007 and 2013 server and Office 365.
- Granted access to users, changed rules within Outlook.
- Performed timely updates and tracking of assigned tickets in Service Now ticketing system.

Adjunct Faculty of Information Technology (Online Teaching)

California State University San Bernardino

April 2017 – June 2017

- Taught Information Technology Course online, application of computer systems in organizations. Topics include information systems planning, information forecasting, information technology, information processing, information assurance and security, risk assessment, allocating resources and legal concepts. Basic computer hardware, software, maintenance and training technologies including hardware components, operating system functions, information systems maintenance strategies for the organization, and end-user training options. Security practices such as network access, data disposal, introductory forensics and facilities planning are also explored.

Adjunct Faculty of CIS (Computer Information Systems)

BERGEN COMMUNITY COLLEGE, *Paramus, NJ*

September 2016 – December 2016

- Taught Introduction to Computer Systems Course to students enrolled in the IT Department, intended for students interested in an algorithmic approach to computers and applications.
- Discussed topics such as terminology used in the computer industry, as well as computer systems and their respective applications.
- Led instruction primarily via interactive methods, e.g. classroom or Instructor-led teaching, long with small group discussions, case studies, demonstrations and Q & A session.

TCS (Tata Consultancy Services) @ TGB

March 2015 – October 2016

Lead IT Analyst (Montvale, NJ)

- Led IT department's operational and strategic planning.
- IT Support Engineer for local and remote sites.
- Coordinated and manage IT Projects with various IT teams
- Incident, Request and Change Management for desktop and laptop environments as per defined SLAs and KPIs.
- Managed the deployment, monitoring, maintenance, development, upgrade and support of all IT systems
- Administered vendor, outsourcer and consultant contracts and service agreements
- Asset management for IT hardware, software and equipment and other office devices such as cell phones, copiers and printers
- Managed Cisco Call Manager and Cisco Unity Connection Phone Systems
- Worked closely with the IT Networking Team integrating technology within the existing networking infrastructure; for both wired and wireless networks.
- Installation, Configurations and Maintaining OS, Standard and Business Applications
- Development of Operating System images and deployment and testing of new systems
- Managed site-specific Documents, Vendor contacts and Escalations, Application Installation Documents.
- Installed, upgraded, configured and deployed Windows OS.
- Cooperated cross-functionally with Networking, Inter-Server Support and the like to assist in setting up the DR (Disaster Recovery) testing site.

KHALED ZAYED, PH.D.

Continued

- Trained customers on Microsoft Office Suite using instructor-led methods; also offered remote support to clients using Remote Desktop (RDP) to diagnose and resolve issues.
- IT Support for Desktop / Laptops, Telephony (Desk phone, Video Conference and handheld devices)
- Managed S/w. Library, License and Inventory list
- Provided Incident Management, Request Management and Change Management for Desktop / Laptop Environment as per defined SLAs and KPIs
- User and Vendor Co-ordination, Communication and Tape Management
- Provided Touch services for Enterprise Services (Server Environment, Data Centre equipment, N/w. Devices)
- Managed site-specific Documents, Vendor contacts and Escalations, Application Installation Documents
- Provided education related to Technology Services across client user communities and advocate for new technology services that would benefit the community's technical operations.
- Performed non-warranty hardware repairs to remove and reinstall hardware parts.
- Supported the end-user community by providing first-tier helpdesk support to team members regarding hardware and software problems.
- Ensured user satisfaction by gathering issues related to technology and business that users did not submit via ticket system.
- Supported desktop imaging and deployment, as well as automated software deployment processes.
- Tested all new software requests in lab environments at the pre-deployment phase.
- Facilitated timely updates and tracked assignments using the ticketing system; managed the queue and often communicated with clients regarding their concerns.
- Interfaced with all other IT departments on behalf of clients to ensure resolution of all issues; owned user concerns and stayed proactive in handling issues.
- Educated and offered assistance to users face-to-face in how to operate and run software.
- Scheduled for external technical support in instances when problems couldn't be resolved internally.
- Stayed informed of technology directions and trends in seminars, meetings and trainings, both online and in person.

Sr. Desktop Support Engineer (Desktop Manager)

CIFC ASSET MANAGEMENT, New York, NY

March 2014-December 2014

- Directed and supported CIFC Desktop functions; offered Tier I and II technical support for desktop PCs and telephones, as well as corporate iPhones, iPads, BlackBerrys and printers.
- Tested and troubleshoot hardware and software for a diverse customer base.
- Supported the end-user community, by offering first-level support in the access and use of resources; drove compliance with infrastructure and operating standards.
- Utilized the Helpdesk Expert Automation Tool (HEAT) ticketing system to obtain, tend to and resolve assigned problems using cutting-edge solutions.
- Used LANDesk to access computers remotely to make diagnoses and resolve assigned issues.
- Interfaced with all IT Departments on behalf of clients to ensure resolution of all hardware and software issues, as well as all voice service issues.
- Educated users on how to operate and run software through in-house trainings.
- Installed and upgraded MS Windows, Adobe Acrobat Reader and Clinical Applications software.
- Joined computers to the organizational domain through Active Directory.
- Downloaded and installed Java Applets, Macromedia, Shockwave Flash and Real Players.
- Replaced malfunctioned hardware, as well as installed new hard drives and memory modules.
- Helped users learn how to operate and run software (using face-to-face training methods).
- Supported Office and Mobile Workforce to ensure all established processes were enforced.
- Played a key role in the Active Directory creation of users accounts in Microsoft Windows 2003; also maintained user manager and email accounts in Windows 2003 server.
- Worked with Bloomberg issues and managed the Symantec Management Console.
- Participated in Disaster Recovery testing at the main location and assisted remote users; also worked with the IT team to plan and conduct disaster recovery testing.

KHALED ZAYED, PH.D.

Continued

- Installed and configured financial accounting applications for clients such as Microsoft Dynamics.

Information Services & Technology (IST) / Customer Support Analyst I

RUTGERS UNIVERSITY-LEGACY UMDNJ UNIVERSITY, *Piscataway & Somerset, NJ*

2012 – 2014

- Guided customers on the operation and maintenance of equipment (through interactive methods).
- Applied guided scripts to perform routine field activities e.g. installing, maintaining and servicing PCs.
- Troubleshoot systems prior to replacing hardware; made sure new items were system-compatible.
- Resolved customer issues using high-caliber service delivery and communication.
- Worked with client communities to enforce security standards, anti-virus software, PHI (Protected Health Information) and HIPAA regulations.
- Interfaced with all other IT departments on behalf of clients to ensure timely resolution of issues.
- Determined problems using knowledge of PC OS, configuration parameters, software and hardware diagnostics and network connection issues (LAN, WAN, VPN).
- Utilized the HEAT Ticketing system to obtain, working on and resolve assigned work; followed up by documenting all progress and escalating issues to specialty areas as needed.
- Offered vital input during decision-making processes regarding buy or build for new applications.
- Evaluated new desktop packages and implemented prototypes.

Dell Certified Systems Engineer

UNISYS TECHNICAL SERVICES, INC., *Newark, NJ*

January 2011 – January 2012

- Received the designated call schedule on a PDA device; traveled to customer sites to perform Dell HW break/fix and troubleshooting on laptops and desktops.
- Provided onsite support e.g. installation, maintenance and repairs for PCs and peripherals.
- Tracked and ensured the return of all parts using Unisys' tracking Software.

Accounting Technician II

ALASKA ENERGY AUTHORITY, *Anchorage, AK*

December 2007 – September 2010

- Audited and reconciled monthly utility reports for the Authority's Power Cost Equalization (PCE) program.
- Acted as a liaison between the Authority and the rural Alaskan program participants.
- Communicated with the Regulatory Commission of Alaska (RCA) in support of communities and utilities.
- Supported PCE clients by correcting errors, locating missing rate information, as well as troubleshooting the system for program deficiencies (such as corrupted formulas, etc.).
- Worked collectively with program participants to reply to questions regarding eligibility, PCE rates or anything pertaining to the program, including delivery of technical assistance.
- Aided in the preparation of PCE statistical reporting and research centered on any questionable data.

Denali General Contractor, Anchorage, Alaska

April 2007- August 2007

Assistant Project Manager

- Provided project support to the superintendent.
- Assisted in managing construction projects ranging from \$1 to \$5 million dollars.
- Prepared purchase orders; amendments and change orders.
- Project team member responsible for office administration; scheduling; and equipment and material logistics.
- Charged with seeking economies and efficiencies for the overall good of each project.

TECHNICAL SKILLS

- IT Management & Project Management, Active Directory, MS Office Suites, Team Viewer, Windows Server, Microsoft Exchange, Postini and MacAfee Anti-Spam, ShoreTel Phone System, Cisco Call Manager Phone System, Zendesk, Wireless Technology, Citrix and Remote Desktop, Electronic Medical Records (EMR), Symantec Anti-Virus and Symantec Executive Backup (DLO), MDM (Mobile Device Management – Mobile Iron), Dell Computer, Hardware, Software Support, IT Security Awareness Trainings.

KHALED ZAYED, PH.D.

Continued

Pedagogy

- Higher Education Faculty in Pedagogy and Course Design, Classroom Problem Based, Instructor Flipped Classroom, Instructor Online, Leader Facilitator Lab, Learning Collaborative, Learning Inquiry Based, Learning Project Based Learning, Lecturer Discussion. Experience using Blackboard, Cengage and Zoom for online and face-to-face teaching
