Dear Sir/Madam,

I have worked with Khaled Zayed at Tata Global Beverages (TGB) US Headquarters in Montvale, New Jersey for most of 2016. TGB is a leader in the global beverage industry, and is a fast paced sales and marketing organization that consists of more than 300 employees throughout the US, and as an Indian parent company, nearly 3000 globally. In my capacity as Procurement Manager, Khaled has been more than supportive and attentive, and has resolved any technical issue I have had in an extremely timely manner, often when remotely, the global support team could not resolve, or forgot to address my issues. Khaled has coordinated largely attended meetings and conferences, some with many remote attendees from all over the world successfully, and provided seamless set up and problem resolution, always with a positive, can do attitude. He is extremely knowledgeable, leads a local team and is more than capable of managing the day to day operation, as well as handle the larger project management responsibilities. He is focused on the business and helping his customers at all times.

I would not hesitate to have Khaled as a member of my team and organization, and am sure he would excel in almost any environment. I wholeheartedly endorse Khaled, his exceptional skills and forthcoming ability to share in a positive way that helps grow the business and encourages all employees to do their best.

If you need any further information, please contact me at the above e-mail address or telephone number.

Regards,

Janet Soriano
