The banner features a gold background with a geometric pattern. On the left is a white snowflake-like logo. In the center, two glass bottles with white droppers are shown: a dark brown one labeled 'VIDAFY NANOFY TURMERIC Extract 15 mL' and a red one labeled 'VIDAFY TURMERIC PLUS+ Extract 15 mL'. Below the bottles is a purple bar with the text 'VIDAFY ESSENTIALS'. To the right of the bottles is a gold circular seal with 'UP TO 277X MORE BIOAVAILABLE' and a starburst pattern. Further right is a purple rounded rectangle containing three icons and text: a person icon for 'INFLAMMATION', a starburst icon for '277x ABSORPTION', and a bottle icon for 'VIDAFY PRODUCTS'. In the bottom right corner is the 'vidawellness GLOBAL' logo.

“I’ve struggled with inflamed skin for the past 2 years. I tried everything, including cutting almost everything out of my diet.

I’m amazed by the difference these golden drops have made in one month. They were actually 90% better within 2 weeks, but here’s the difference from 16 August on the left to 16 September on the right.

I’m quite sensitive to supplements too, so have been building up slowly and still only at 7 drops a day!”

"I was amazed when I saw my daughter's skin yesterday after just 5 days of using the drops.

She is now almost 19, and has been suffering from acne since the age of 13-14, with many different approaches to make it better.

It has always been an issue for her, and it has been a struggle for her, trying to hide it with makeup. We have both been taking these amazing drops since Saturday and this is the result with 10 drops daily."

"Unbelievable really.  
Just a few days apart.

If I didn't take these  
pictures I'd have probably  
not realised myself how  
dramatic the improvement  
has been."

“These feet are from my husband and in the first two you can see how swollen they are and this already for years! He is very skeptical about natural products but not being well, he was willing to try it.

During 3 weeks from starting to take the drops his feet changed to the result you see on the last picture and he feels so much more comfortable now.”

“4 days ago I was stung on my wrist and lord let me tell you it hurt and itched soooo bad. Today I finally have relief AND you can't really tell I was stung. I applied the drops directly on the area for 3 days. Pain all the way to my elbow.

LET'S JUST SAY I'M  
ABSOLUTELY IN LOVE WITH  
THESE DROPS”

“This was my abnormal cell growth in July. It was sore bleeding and had been there for 3 years. I used 1 drop topically and took 13 drops orally and it opened up and drained and the pain and redness went.

Here's the end result.. I'm thrilled and my skin is glowing.”

“After dabbing the drops on lesions from a viral infection, the pain went away but returned when I washed the drops off. After applying drops on three occasions, the nerve pain is totally gone.

From the day I received the bottle and took doses twice a day for 5 days, till cleared (almost completely) is two weeks!”

“I have a 24 year old Australian stock horse who couldn't keep up with the herd, was depressed, didn't trot, was grumpy all the time. His last cortisone injection made him 10x worse, to the point he was holding his leg up and refusing to walk.

He has been on these drops for 5 days. We have more than halved his herbs! He is SO bright eyed and he has so much more energy. He actually walked up the hill to our house which he avoids because it hurts....and he didn't limp up it! He's walking almost normally! I haven't seen him move with this much ease in years! It's like he has a whole new lease on life.”

“I recently got a [viral infection]. In this first photo I could not shut my eye and my mouth was so lopsided that I would spill my drink when drinking. The doctors said it would take months to correct itself.

Fortunately my dear friend got me some liquid curcumin drops and within two weeks I got my smile back.

Yesterday I had my checkup with my doctor and she was astonished. I love these miracle drops so much.”

“Wow... , It's me so I know it's real, but still, I am impressed”

For 3 years Flo had managed an abnormal cell growth on her cheek. In 2023 it was treated with black salve. After taking 10 drops a day orally for 13 days, the wound healed over.

“My beloved 87 years old father consumed the golden drops for 3 and 1/2 weeks recently. He has made tremendous progress... Sleeps well day and night, his foot got healed fast and we ended the dressing of his sores yesterday. In fact he had been bed ridden since last year in November.

His swollen face, fingers and body are back to normal. He's beginning to regain his memory and speaking and singing with clarity. Praise God for leading me to such miracle product.”

“Jeff, a 53 year old with poor circulation and nerve inflammation had a wound that would not heal.

Doctors were trying antibiotics and topical ointments to no avail. Next option...skin graft surgery.

His sweet momma contacted me and I recommended our golden drops both orally and topically.

Within 2 months it was completely closed!!”

“I continue my journey with our golden drops..now 4 months in. I am continually amazed at other benefits I receive. For 30 + years I have had severe toe nail fungus. 3 different doctors prescribed me meds.

Nothing in my diet has changed besides 10 golden drops a day..circulation improvement has hair growing well...even on my toes...love my drops..”

“I have been using the drops for just under 2 months!

- My feet healing (obviously)
- Clearer mind
- Dry skin gone
- Hair growing back

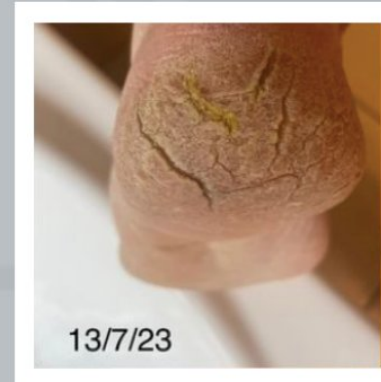

For many many years now I have either used a little rotating sander to get rid of the crusty dry skin or cut it off with a razor blade. They were so bad that the cracks would get right down into my flesh and bleed.

Since starting the drops in June my feet have changed to what you see.

They are healing from the inside. No more pain. No more cutting my feet with a razor blade.”

“Nine years ago my husband crushed his calcaneus, which ultimately led to him having ankle surgery. The surgery left him with an angry brownish - black scar, and chronic pain. He just assumed he'd live with it the rest of his life.

Enter curcumin! The drops initially helped with the pain tremendously. This is what the scar looked like after two months on the drops.

He never complains about his foot or ankle hurting anymore and said he has zero pain! That's down from a chronic 5 out of 10, which he had for years before starting the drops!

Imagine what these drops can do in our bodies if they can do this for a 9 year old scar!”
