The book of Revelation can be seen as very intimidating to read and understand, but it says that we are blessed if we read it. [The 7 Churches of Revelation](#) is another documentary by Day of Discovery which visits these cities remains, teaching on a bit of the history and why Jesus gave the Apostle John specific messages for each of them. In understanding the history and location of each of these churches, it makes the message much clearer. It is great to have in your video library.
