King David is said to have been a man after God's heart. He says in Psalm 14:1, "*The fool says in his heart, "There is no God."*" Yet throughout the centuries, man has still tried to discredit, deny and disprove that there is a God in heaven, the Creator of all things. [The Case for Christ](#) is a true life story, like so many professing atheists of their endeavors to disprove Christianity. This is the story of a well known Christian pastor and author of his quest to disprove the God of the universe. It will challenge all of your unbelief!
