

Overview of Prayer Meeting, May 18th, 2025

Prayer meetings are very important in church gatherings. We designate at least one Sunday Service per month to prayer only. We open with a time of praise and worship, the word and prayer and close in celebrating the Lord's Supper, communion.

Today was focused primarily on prayer for the major television networks in North America. There is a sifting, shaking, exposure, purging and purifying of these Christian places which, in the past, were really the only place to be able to view and hear Christian ministries. But with the accessibility of social media at our fingertips, these sources of media are losing their influence, and what has been going on behind the scenes is coming to light. What is coming to light should not shake the church but encourage us. Nothing is new and history repeats itself. We see throughout the New Testament the exposure of sin and the admonition for the church to flee all corruption, evil and sexual deviance. The same is happening today. To us it may seem shocking and cause our hearts to be grieved, but if we see that the early church experienced such things, should we expect less? The desire for power and money in the church unfortunately has not changed and people will go to great lengths to attain it. We prayed that true repentance would come to these organizations and leaders.

Some scripture verses that bring light to this are; [1 Corinthians 5](#), [Galatians 5:19-21](#), [Ephesians 5:3-5](#).

There is also this short video on Queen Athaliah, which also shows the length to which she went to gain power in Judah by having her own grandchildren murdered so she could gain power and control. This queen was the daughter of none other than King Ahab and Queen Jezebel! Self-preservation through selfish ambition, never exemplifies the fruits of the Holy Spirit and the end result is always destructive.
