Kelyniam Global, Inc. is a custom design-to-build medical device manufacturing company specializing in the delivery of cranial implant technologies to neurologically dependent patients. The Company is engaged in the production of custom prosthetics utilizing computer-aided design and computer-aided manufacturing of medical-grade polymers. Its Engineering Division uses Bio-Computer Aided Design (CAD) Computer Aided Manufacturing (CAM) technology to provide replicated cranial implants to replace damaged bone structures.

Its product, PEEK-Optima, is engineered for biocompatibility. Derived from the patient's computed tomography (CT) data, the Company's 3D BIO-CAD/CAM software is used to transfer the details found on the edge of the defect directly to the implant edge. The Company's emergency plan, ke24, provides precision-replicated, patient-specific cranial implants in approximately 24 hours.

The Company distributes its products throughout the United States via independent distributors and sales representatives promoting the product directly to neurosurgeons who have discretionary authority to purchase the product with superior fit and medical qualities. The ultimate customer is the hospital where the surgery is executed, and the hospital remains the buyer of record. As such, the Company incurs very few bad debts and revenue, when recognized, is ultimately collected.
