MANY
Solutions

PEEK Customized Craniofacial (CCI) and Skull (CSI) Implants with Integrated Fixation

- Saves money - reduces the need for plating hardware
- May reduce O.R. time
- Sonolucent¹, radiolucent and non-magnetic (no MRI or CT artifact)
- Delivery within 24-48 hours

FUSION™ Craniofacial Implant (FCI) and FUSION™ Skull Implant (FSI)

- The strength of PEEK
 - The benefits of Integrated Fixation
 - Biphasic calcium phosphate (BCP), enhances osseointegration², and may decrease the incidence of post-surgery (nosocomial) infections³
- 

WHY KELYNIAM IMPLANTS?

- Designed and manufactured in the USA
- 24-48 hour delivery
- Patented Integrated Fixation System (IFS)
- Serving neurosurgeons since 2011
- OTC: KLYG

THE LEADER IN REGENERATIVE NEUROSURGERY.

Fin-Ceramica CustomizedBone™ Hydroxyapatite Implant

- Osteoconductive and osseointegrable
- Low infection rate⁴
- No CT artifacts and MRI safe
- Pediatric indication >7 years
- NEOS Cranial LOOP™ fixation

Osteopore® Regenerative Bone Scaffold

- Fills bone gaps following craniotomies
 - Osteoconductive scaffold that supports natural tissue regrowth⁵
 - Radiolucent and MRI safe
- 

ABOUT KELYNIAM

- Serving neurosurgeons since 2011
- Based in Canton, CT, USA
- Pioneers in medical manufacturing, custom cranial implant design, integrated fixation, and regenerative solutions for neurosurgery
- The fastest turnaround time. Implants consistently delivered in 24-48 hours when requested
- Traded OTC: KLYG
- Customized Precision. Expedited.
