

STRAIGHT THROUGH BOOMLESS SPRAY NOZZLES

SPRAY PATTERN

Nozzle provides a 90° outward spray pattern with 7° of kickback under the nozzle (97° total) to provide full coverage in multiple nozzle configurations.

Nozzles are designed for left-hand or right-hand applications

NOZZLE FEATURES

- All nozzles are made in the USA.
- All nozzles are 5-Axis CNC Machined from high grade stainless steel. No plastic parts or soft metals to wear out, break or replace. No small orifices or slots to get plugged up.
- All nozzles feature patented anti-drift technology.

30	2.0	17 ft.	30	19	15	12	10	8	7	6.5	6	5	4.5
40	2.5	17 ft.	36	24	18	15	12	10	9	8	7	6.5	6

BOOMLESS NOZZLES BENEFITS

- Produce a very even, large droplet pattern for minimal drift.
- Can easily spray around obstacles & over uneven terrain.
- Eliminate the cost of spray booms & boom maintenance.
- Have superior wear and chemical resistance.
- Designed to save time and money.
