Arizona State University
Tempe, AZ
BS in Neuroscience
GPA 3.21

Key Skills

Hardworking
Quick Learner
Dedicated
Communication
Problem-solving

Objective

As a graduate student in Neuroscience, hoping to expand my focus to become a future clinician. I constantly strive to learn additional skills to better myself and to continue my education in medicine and science. I am seeking work to advance my skillset in patient care to accompany these goals while providing the care necessary to our patients through the journey.

Experience

March 2023 - Present
Reimbursement Specialist • Premier Bone and Joint Centers

December 2022 – March 2023
ER Admissions Representative • Iverson Memorial Hospital

October 2021 – July 2022
Credentialed Behavior Technician • C.A.R.D.

Present Responsibilities: Handles denied claims with insurance to ensure claims are paid and processed appropriately within a timely manner. Assists patients with billing questions and concerns over the phone and in person. Manages deadlines consistently and appropriately as needed.

Communication

Participates in active communication both written and verbal to ensure work is completed accurately and efficiently.

Leadership

Presently assisting leadership with MedNew's Week to ensure timelines are met and all work is done accurately, efficiently, and effectively.
