

My name is Patrick, and I am obsessed with travel research. I built Patio Tours so you never have to stare at 14 open browser tabs, stress over logistics, or experience the world through the tinted glass of a 50-passenger motorcoach. I handle the complex logistics so your shoulders can finally drop, and you can just enjoy the trip. Join me and Kevin from Collette for a laid-back Info Night where we unveil two brand new, small-group itineraries built for authentic immersion.

When: September 21 at 5:30 PM

Where: Three Heads Brewing (Rochester, NY)

Vibe: Casual. Come hang out, talk travel, and hear the route details.

1. The Azores: An immersive dive into breathtaking volcanic landscapes. Expect real local connections, and some of the best food and wine you will ever have in your life.

2. The 2027 VIP Serengeti Safari

A bucket-list escape across Kenya and Tanzania, strictly capped at just 12 premium seats. We are skipping the generic hotels for 15 days of immersive tented camps, endless plains, and zero friction.
