

---

General Information:

TurboGreen contains a highly populated blend of specifically selected microbes needed to facilitate nitrogen conversion and other plant processes. These microbes are beneficial to the release of nutrients naturally occurring in the soil or soil organic matter. TurboGreen is designed to enhance nutrient uptake, improve soil health, and increase nutrient availability.

Safety - TurboGreen contains only non-genetically modified and naturally occurring microbes. It is non-toxic to plants and animals. Keep out of reach of children.

Mixing - TurboGreen can be used in conjunction with most fertilizers and herbicides. Mix TurboGreen as close to time of application as possible. Always perform a jar test to ensure tank mixing. Deposition adjuvants may enhance results. Best results occur when sprayed in late evening or early morning, ideally during dew set. Use higher volumes of water if application is above 75 degrees and in sunny conditions.

**USAGE:**

ROW STARTER (IN FURROW OR 2X2): **16-32 OZ/ACRE**  
BROADCAST: APPLY BY AIR OR GROUND AT **16- 32 OZ / ACRE**  
ORCHARDS: APPLY AT **1 GAL / ACRE** AS A FOLIAR OR THROUGH IRRIGATION  
AS SEED TREATMENT: **3-4 OZ / 100LBS** OF SEED  
TURF: **4-8 OZ / 1000 SQ FT**  
APPLICATIONS WHEN TEMP IS ABOVE 35 DEGREES CONSISTENTLY IS IDEAL

**INGREDIENTS:**

OVER A DOZEN LIVE BENEFICIAL SOIL MICROBES AT 5 BILLION CFU/ML. MICROBIAL SUPPORT INGREDIENTS. ACTIVATED WATER

**STORAGE:**

STORE IN A WARM, DRY ENVIRONMENT AND OUT OF DIRECT SUNLIGHT. DO NOT FREEZE. AVOID AGITATION. FEED BI-MONTHLY WITH MICROFUEL FOR BEST RESULTS. PRODUCT INTENDED TO BE USED AS QUICKLY AS POSSIBLE.
