<u>Overview</u>

Salt Lake City Office

12 Mo Deliveries in SF

12 Mo Net Absorption in SF

Vacancy Rate

12 Mo Rent Growth

1.6M

Salt Lake City's office market received a big boost with 1.0 million of positive absorption in the past 12 months, contributing to a vacancy rate of 10.0%. Prior to 21Q2, the market endured four consecutive quarters of negative absorption, which drove vacancies from 6% to more than 10%, a ten-year high. Salt Lake City's employment market has weathered the pandemic better than most metros, however, work-from-home trends have played a role in vacancy expansion.

Office leasing volume more closely resembles prepandemic levels. Supply pressure will likely put some 10.0%

2.6%

upward pressure on the vacancy rate in the near term unless leasing volume rises substantially from current levels. About 1.9 million SF is underway which would expand inventory by 2.3%.

Rents have been impacted by tempered demand and higher vacancies. Annual rent growth is positive at 2.6%.

Investment volume has been tepid in the past 12 months with only a handful of trades taking place. Price appreciation has been fairly flat while the average market cap rate is .

KEY INDICATORS

| Current Quarter | RBA | Vacancy Rate | Market Rent | Availability Rate | Net Absorption SF | Deliveries SF | Under Constructior |
|----------------------|------------|-----------------------|---------------------|-------------------|----------------------|---------------|-----------------------|
| 4 & 5 Star | 28,322,388 | 13.4% | \$28.88 | 16.3% | 108,420 | 0 | 1,592,793 |
| 3 Star | 34,304,231 | 8.9% | \$23 | 12.0% | 9,311 | 0 | 257,227 |

| Annual Trends | 12 Month | Historical Average | Forecast Average | Peak | When | Trough | When |
| Vacancy Change (YOY) | 0.5% | 7.4% | 9.6% | 10.2% | 2022 Q1 | 5.9% | 2016 Q4 |
| Net Absorption SF | 1M | 1,130,227 | 821,234 | 2,637,631 | 2017 Q2 | (929,992) | 2021 Q1 |
| Deliveries SF | 1.6M | 1,369,405 | 963,251 | 2,838,626 | 2020 Q4 | 354,592 | 2015 Q1 |
| Rent Growth | 2.6% | 2.2% | 1.9% | 5.8% | 2015 Q1 | -4.0% | 2011 Q4 |
| Sales Volume | \$359M | \$209.4M | N/A | \$541.3M | 2019 Q2 | \$19.7M | 2009 Q4 |

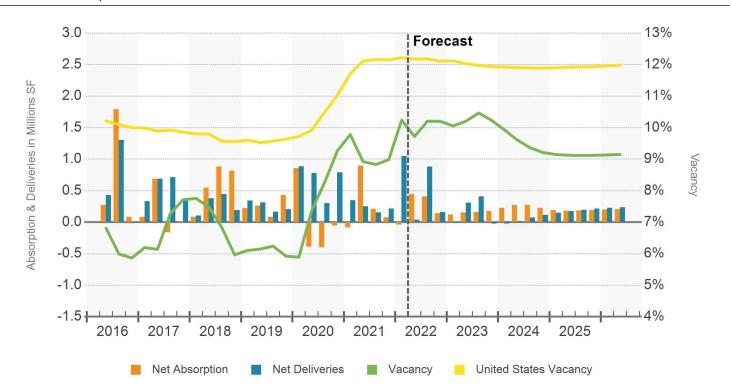

Office leasing volume is picking up in Salt Lake City but has yet to return to pre-pandemic levels. In 21Q2, the market rebounded with more than 800,000 SF of positive absorption, outpacing the roughly 300,000 SF of deliveries and compressing vacancies back below 10%. Vacancy remained fairly stable in the second half of 2021 with minimal absorption and new supply. However, Salt Lake City is still recovering from negative absorption from 20Q2-21Q1 which pushed the vacancy rate above the historical average of 8%. Vacancies could face more upward pressure in the coming quarters if demand moderates as new office developments deliver.

In the CBD, the nearly 600,000 SF 95 State at City Creek development is wrapping up construction. Additionally, one of the metro's and state's largest employers Zion Bancorporation broke ground on their new 400,000-SF technology campus in the Sandy South Towne Submarket. The project will accommodate more than 2,000 employees that will support the bank and its affiliate brands across 11 states in the west. Construction is projected to complete by the end of 2022.

A variety of office tenants have inked deals in recent months, including Extra Space Storage renewing its 92,000 SF headquarters in Cottonwood Heights. Juneau Biosciences leased roughly 75,000 SF at Micronet's former space at CentrePoint Business Park. Financial and technology companies continue to be important drivers of not just employment but also office leasing. Several tenants including ThermoFisher (24,000 SF), TaxBit (23,000 SF), and Aumni (21,000 SF) have subleased substantial chunks of office space.

Rents are currently posting gains of around 2.6%. The majority of new office supply in Salt Lake City since 2015 is 4 & 5 Star space, and the competition for tenants at the new high-end space, along with weakening demand from the pandemic, is impacting rents. Businesses may be cutting back on space or halting expansion plans as the pandemic continues to impact the economy and many employees remain working from home.

While the influence of the coronavirus pandemic appears to be having a negative effect on the top end of the office market, the previously underperforming 3 Star sector may be benefitting. Rent growth for 3 Star properties trailed 4 & 5 Star gains since the start of 2019, but has started to increase slightly in the fourth quarter and is around 3.2%. Many businesses searching for space in this climate of economic uncertainty are likely to gravitate towards the affordability of mid-tier properties. Average rents for 3 Star space are approximately \$23.00/SF, around a 4% discount to the metro average and nearly 20% below average 4 & 5 Star rents.

The CBD, the largest submarket by inventory in the metro, also has one of the highest average asking rents at nearly \$29/SF, about 20% higher than the metro's average asking rents. The higher average asking rents can be attributed to the submarket's large proportion of 4 & 5 Star properties. More than half of the submarket's square footage is 4 & 5 Star. Some of the top rents in the CBD are in buildings along Main Street. This includes 111 Main, one of the few significant projects to deliver in the CBD this cycle, which has average asking rents over \$33/SF.

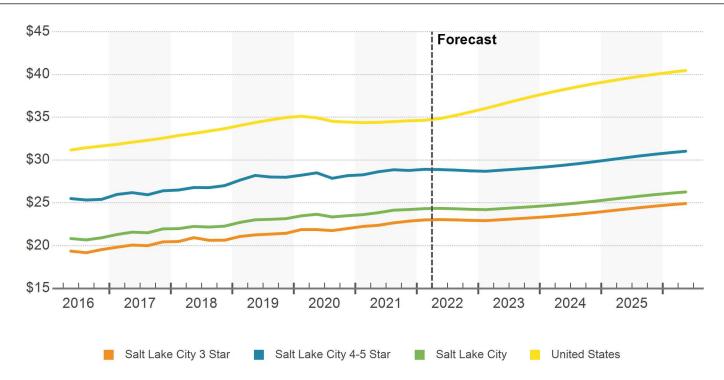

MARKET RENT GROWTH (YOY)

Expenses are estimated using NCREIF, Trepp, IREM, and CoStar data using the narrowest possible geographical definition from Zip Code to region.

Salt Lake City's office pipeline will continue to play a role in pressuring the vacancy rate. Even with the headwinds facing the office market during the pandemic, the amount of office space under construction remains elevated as several new properties break ground.

Development levels remain elevated in the southern submarkets, particularly Draper and Sandy South Towne, where transit-oriented opportunities off of I-15 are plentiful. One of the sizable properties to begin construction in 20Q3 is in Sandy South Towne: the 402,605-SF office building for Zions Bancorporation. Oakland Construction is the developer for the 4 Star building that is anticipated for delivery in summer 2022.

Draper, like Lehi in the Provo metro to the south, is seeing a boom of office development in response to rapid economic growth fueled by the tech sector. Draper continues to receive an outsized share of new office construction, with nearly 590,000 SF of space underway, on top of the roughly 1 million SF of office space delivered since 2016. In 20Q3, the Gardner Company broke ground on another building in the Vista Station development: a 156,000-SF, six-story office building. The Gardner Company also developed online education company Pluralsight's new 348,000-SF build-to-suit. The project delivered in late-2020 and serves as the company's new headquarters.

Development has recently picked up in the Central Business District (CBD) following a dearth of new development for several years. Construction in the CBD was virtually nonexistent since the completion of 111 Main in 2016, but that changed with the start of a major development. Construction started in spring 2019 on 95 State at City Creek, a 25-story, 589,945-SF speculative office building. The Class A project is owned by City Creek Reserve, the real estate branch of The Church of Jesus Christ of Latter-day Saints (LDS). Located in the heart of downtown, the building is located near public transit and amenities from the City Creek shopping center.

The disruption caused by the pandemic has dampened office investment across the country, even in a thriving economy with a wide base of office-using employment like Salt Lake City. Although Utah's non-disclosure status tends to cloud the investment picture, about \$300 million worth of office assets have traded in the past 12 months.

Pricing has remained somewhat flat over the past 24 months, and cap rates are currently at 7.3%. Salt Lake City cap rates tend to trend slightly higher than the national average.

One of the biggest recent trades was Quorum Health Corp selling a 25,114 SF medical office building in Tooele for approximately \$8 million (\$318/SF). The asset delivered in 2009 and is part of the Mountain West Medical Center. The cap rate was reported at just over 6%.

Private investors still make up the majority of buyers in the market, but recent years have seen a rise in other types of investors. Prior to 2010, private investors accounted for around three-quarters of sales volume by buyers; since then, they account for around half. The share of investment by private equity, REITs, and institutional investors has increased from just under a quarter of buyer volume until 2010 to just under half since. Salt Lake City's growing economy, particularly the growth in the financial and tech sectors, along with more attractive pricing relative to other major western metros, has gained the attention of a broader group of office investors.

Thanks to a successful reopening of the economy and a continuation of strong in-migration and demographic trends, Salt Lake City has weathered the pandemic-induced downturn better than most U.S. markets. Employment returned to pre-COVID levels of employment by the first half of 2021, one of the quickest recoveries in the country. Salt Lake City now has about 20,000 more jobs than it did prior to the pandemic.

Utah's reputation as one of the most desirable places in the U.S. to do business is a major draw for employers. The state's lower costs of doing business, which include lower tax rates, tax incentives, and more affordable real estate and labor, have helped encourage companies with existing presences to expand and new companies to enter the area. A significant portion of the metro's job growth comes from an array of high-paying, white-collar employers in info-tech, finance, and professional services.

Job losses sustained during business closures related to the pandemic drove unemployment up to just over 11% in April 2020, although this remained one of the lowest metro unemployment rates in the U.S. Salt Lake City's strong economic rebound drove unemployment to pre-COVID levels by the end of 2021.

While all job sectors were affected by the pandemic, the impact was not spread evenly across employment sectors. Salt Lake City's financial and technology sectors sustained more modest job losses due to the viability of remote work and minimal disruption to productivity gains. The financial and technology industries and the intersection of the two referred to as fintech, have grown their presence and had employment gains of about 20% since 2011.

Utah has one of the highest concentrations of tech workers relative to the overall employment base. There

are more than 6,000 tech and software companies located in the Salt Lake City and Provo markets, including Overstock.com, Adobe, and Qualtrics, as well as startups Pluralsight and Domo. The metro's largest financial company is Zions Bancorporation, which employs more than 3,500 personnel. Other major financial employers include Wells Fargo, Discover Financial Services, and American Express. Goldman Sachs also has a significant presence in the metro, employing more than 2,500 people at its downtown office, Goldman's second-largest office in North America.

The Salt Lake metro is responsible for approximately 40% of the state's tourist-generated tax revenue, with Salt Lake City International Airport being a primary gateway in the region. The presence of the airport and convention center, along with being the gateway to numerous ski resorts and national parks, are driving factors in the leisure and hospitality sector in the metro. The coronavirus continues to have a significant impact on travel and group events. The tourism and retail industries have been severely impacted by the pandemic. More than 30,000 leisure and hospitality jobs were shed from February to April in 2020, and as of December, only around 60% had been regained.

Many construction projects continued work through the nonessential business closures and the elevated levels of new development in the metro are keeping the sector growing. Construction continues on the \$4.1 billion Salt Lake International Airport (SLC) Expansion. "The New SLC" airport project opened its first phase in the fall of 2020 and included a new parking garage, pedestrian bridges, a central terminal, and the west portion of Concourse A. The second phase is expected to open in 2024 and will build out the east portion of Concourse A and tear down existing structures. Once complete, the airport will be able to support 34 million visitors per year.
