

Southeastern Idaho Public Health

July 3, 2020

Seth Scott
Kim Cox
4PGF Road Ride Organizers
Pocatello, ID

Dear Dr. Cox and Seth,

To follow up on our meeting earlier today, Southeastern Idaho Public Health has reviewed your Safety Protocol and Ride Day Procedures for 4PGF's planned August 8, 2020 road ride. Based upon the information you submitted to us, your plan meets the intent of the *Rebound Idaho* and *Stay Open* guidance from Gov. Little. We greatly appreciate your commitment to ensuring the health and safety of your participants, their families, and our communities.

As you are aware, any type of large gathering of people has the potential to impact spread of the COVID-19 virus. Your plan works to mitigate this risk, but does not eliminate risk. Per our discussion, a significant increase in cases and other metrics may result in the cancellation of all large gatherings.

I appreciate your acknowledgement of the importance of being able to follow the guidance's Protocols. The full document and guidance/protocols may be found here: www.rebound.idaho.gov.

Please do not hesitate to contact me at [redacted] if you have questions.

Sincerely,

Maggie A. Mann
District Director
