FieldGuide9 is a spiritual community that supports our members to engage in mystical ceremonies which incorporate plant medicines as a sacrament. We believe in the exploration of mystical experiences, personal growth, and connection with the divine, within our community.

Within FieldGuide9, among other modalities, we organize and participate in ceremonies designed to facilitate spiritual experiences. These ceremonies involve breathwork, meditation, and other practices aimed at creating a sacred and introspective atmosphere.

Plant medicines, found naturally in certain species of mushrooms and plants, considered a sacrament within our community, which we treat with reverence and use ceremonially to facilitate spiritual experiences, inner exploration, and personal transformation. We view plant medicines as a tool for connecting with the divine, expanding consciousness, and gaining deeper insights into ourselves and the nature of reality.

We place importance on personal growth, emotional healing, and spiritual development.

As members of FieldGuide9, we provide a supportive community for each other. We come together to share experiences, insights, and guidance, fostering a sense of belonging and mutual support in our spiritual journeys. We also offer educational resources, products, workshops, and integration circles to help individuals integrate their psychedelic experiences into their daily lives.

We are mindful of the legal and ethical considerations surrounding psilocybin and other plant medicines. Ethical considerations, such as informed consent, responsible use, and harm reduction, are prioritized to ensure the well-being and safety of all participants.

In summary, FieldGuide9 is a spiritual community that embraces mystical ceremonies and incorporates plant medicines as a sacrament. We come together to explore our spirituality, promote personal growth, and support each other in our journeys of self-discovery, using plant medicines as a tool for transformative experiences.
