## *Our Company*

Moving Made Simple eases the moving and estate processes by taking these often overwhelming tasks and breaking them down into bite-size pieces. Every client's need is different, so in addition to their real estate services, Mark Adams and his team can provide contractors, movers, cleaning services, and an auction company, if needed.

# *Our Story*

My team and I started this company after I experienced the moving process with my own mother after my father died. It was even more emotional than we expected, and although we are real estate professionals, the amount of planning was overwhelming. We could only imagine how difficult this process could be for someone without a trusted advisor. We felt the call to provide support and reassurance to seniors and their families, and so, we created Moving Made Simple.

## *What Our Customers Say*

My husband and I finally decided we wanted to live in a retirement community. Mark did so much more than sell our house! They had contractors do repairs, provided a mover, and had our home professionally cleaned. We never expected the process to be so fast and painless. Mark and Lisa were considerate of the emotional aspects of older clients having to discard 45+ years of accumulation and leave their home of 30+ years.

*George and Nancy Plunkett*
