Living with Urban Wildlife in Agoura Hills

Spring, 2019

## Our Urban Wildlife

It's **baby season!** Here's some information for you on coexisting with urban wildlife when spring is in the air.

### Birds

Many birds nest in the spring. **Fledglings birds** have feathers and **cannot fly**. You will see these birds on the ground. **Juvenile crows** spend time on the ground under the watch of their parents. **Inform children** not to chase them. **Use caution** with domestic pets and backyard activities.

### Rabbits

**Rabbits** will breed and build nests in **spring and early summer**. **Rabbits leave their young for long periods of time**. If you come across a nest of baby rabbits and worry if they are abandoned, **crisscross the nest** with a couple of strands of string. If it is pushed out, then the mother is returning to the nest.

### Coyotes

Coyotes give birth the **middle of April**. Please **abide by our park rules regarding off-leashed pets**. Protective mothers need their space. You may see more coyotes at this time so **be careful** when walking small dogs in our neighborhoods. Carry a whistle or a can filled with coins **to haze coyotes**.

### Squirrels

The stork will deliver baby squirrels from **March to June**. Keep your tree trimming to **late fall and early winter**. Tree trimming could disturb **nests and babies**.

## Recognition of Agoura Hills businesses.

Thank you, **West Valley Horse Center** for not using rodent poisons in your rodent-prevention practices.  
Thank you for not selling rodent poisons.

Do you own a business we can recognize? Please contact us at [PoisonFreeAgouraToday@gmail.com](mailto:PoisonFreeAgouraToday@gmail.com)

Poison Free Agoura is a project under Social And Environmental Entrepreneurs (SEE). SEE is a 501 [c] (3) nonprofit organization. We are an extension of SEE's mission. SEE is our fiscal sponsor. To learn more about us, please visit [PoisonFreeAgoura.com](http://PoisonFreeAgoura.com)

**Vision:** To live in a city where children, domestic pets, and urban wildlife are safe from the danger of rodent poisons.

**Mission:** To provide education to members of our community and help them identify safe alternatives to rodent poisons.

**Mantra:** We're for People, Pets, and Pumas.

# The Dole Great Race - Visit Our Booth 7050

4,000 racers at the Dole Great Race will get our postcard in their goodie bags!

Our race team will be wearing red tank tops. Send us an email if you want to run with our team.

Can't make it? Remember to see RED (Repel, Exclude, and Deter) Our wildlife thanks you!

# Take the Pledge!

Do you want to take the pledge to break the poison chain? Visit us at our Great Race booth and sign up to take the pledge.

Cheer us on. If you want to carry a Protect our Wildlife sign while standing or sitting along the 10K course or if you want to place a sign in front of your house. Contact: [PoisonFreeAgouraToday@gmail.com](mailto:PoisonFreeAgouraToday@gmail.com)
