## ABOUT OUR **COMPANY**

S S Alur Construction Company is a renowned multidomain infrastructure firm founded in 1992, specializing in sustainable infrastructure development. With a diverse portfolio and rich heritage.

We offer integrated services throughout the country. Our focus is on quality, utilizing high-grade materials, cutting-edge machinery, and experienced professionals. We aim to improve lives, protect the environment, and contribute to the nation's development through innovative and safe construction techniques. Certified with ISO 9001:2015, ISO 14001:2015, and ISO 45001:2018, we prioritize excellence, environmental responsibility, and occupational health and safety in all our projects. Our dedication to sustainable practices is evident in every aspect of our operations, from the materials we use to the technologies we adopt, ensuring that our infrastructure solutions are both high-performing and environmentally friendly.

# COMPANY HISTORY

---

M/s S S Alur Construction Company, known for its remarkable footprint in the infrastructure landscape of Karnataka, has a rich history etched with milestones & pioneering efforts. The roots of our company stretch back to our inception as 'S S Alur Engineers & Contractors', a name that became synonymous with quality and trust in the region's construction industry.

Our story began under the visionary leadership of our founder, Shri Sharanappa Alur. Fueled by a dream to connect people and communities by building robust infrastructure, Shri Alur's ambition went beyond the creation of a construction enterprise. His vision was to inculcate safe construction practices and create a socially responsible organization that contributes to the development of the region. The company started by undertaking diverse construction projects, steadily earning a reputation for quality workmanship, punctuality, and exceptional project management. We built our name in constructing roads, bridges, and canals, consistently delivering on our commitments and exceeding client expectations.

In 2016, to consolidate our position in the industry and drive further growth, the company underwent a strategic restructuring. S S Alur Engineers & Contractors was reborn as 'M/s SS Alur Construction Company,' a partnership firm. This restructuring brought new vigor and impetus to the organization, paving the way for the next phase of our growth. The revised partnership model allowed for new perspectives and ideas, ensuring that our founder's vision continued to thrive through modern times.

Since then, M/s SS Alur Construction Company has rapidly expanded its operations across Karnataka, undertaking significant projects such as the Mudhol Bypass Road and the Greenfield Airport at Vijayapura. We have also ventured into the manufacturing of stone aggregates and M-Sand, utilizing state-of-the-art crushers and M-sand units.

# CORE VALUES

Our core values are characterized by curiosity, which helps us find solutions to the most complex challenges. We believe in working together in a better way and never stop asking, "What if?" Putting our clients first is ingrained in every professional at S S Alur Construction Company, and we design all of our projects with safety, integrity, and excellence in mind.

## VISION

*To be a global leader in infrastructure development, fostering societal progress and economic growth. We aim to pioneer new industry standards by committing to project excellence, timely delivery, and sustainable growth that benefits society and the environment.*

## MISSION

*Our mission is to deliver high-quality, sustainable infrastructure that drives growth and connects communities. We pledge to uphold the highest standards of safety, innovation, and environmental responsibility, guided by our core values of integrity, transparency, and professionalism.*

## Goal

*Our goal is to improve the quality of life for ordinary people while maintaining environmental stewardship by continuously improving infrastructure. We are committed to Infrastructure,*

## Innovation & Impact

*creating robust infrastructure that meets the highest standards, fostering innovation to develop sustainable solutions, and making a positive impact on communities and the environment.*

# MANAGEMENT & TEAM

## **Shri Sharanappa Sangappa. Alur** B.E Civil.

Founder

At the forefront of M/s S S Alur Construction Company stands its esteemed founder & Managing Partner, Shri Sharanappa S Alur. With a visionary perspective, he laid the company's foundation over three decades ago, aiming to create a better and more interconnected society through superior infrastructure. Widely respected in civil engineering and construction, Mr. Alur's unmatched passion drives the consistent delivery of high-quality construction services, transforming the regional landscape one project at a time.

His unwavering commitment to excellence, safety, and timeliness defines the company's ethos and inspires the young professionals within the organization to strive for greatness.

As both a leader and mentor, Mr. Alur personally visits project sites, fostering collaborative problem-solving and sharing his extensive knowledge and experience. Beyond construction, his philanthropic endeavors extend the company's positive impact into the community, enriching lives beyond business boundaries. Mr. Alur's visionary leadership, tenacity, and humanitarian values have shaped M/s S S Alur Construction Company into an industry leader, recognized for quality work, timely delivery, and an unwavering commitment to clients and community. Guided by his exceptional leadership, the company promises a future of sustainable growth and continued success.

# MANAGEMENT & TEAM

## **Shri Vijay S. Alur** (B.E Civil.)

Mr. Vijay S. Alur represents the next generation of leadership at S S Alur Construction Company. As a Partner, Vijay combines modern perspectives with the core values set by the company's founder. A civil engineering graduate passionate about infrastructure innovation, he is focused on leveraging new technologies, exploring sustainable practices, and leading the company towards expanded opportunities. Vijay's dynamic leadership and forward-thinking approach continue to drive the organization toward a future marked by growth, excellence, and impact.

## **Smt. Sunita S. Alur**

Smt. Sunita S Alur, a Partner and integral member of the leadership team, contributes strategic insights and construction industry expertise. Together with Shri Sharanappa S Alur and Mr. Vijay S Alur, they lead a skilled workforce, delivering high-quality work on time and within budget, setting M/s S S Alur Construction Company apart in the industry.

## **Senior Management Team**

Our senior management team comprises highly experienced professionals who bring years of expertise across various domains of the construction industry, including engineering, project management, procurement, quality assurance, and health & safety. Together, they ensure that all projects are completed to the highest standards, emphasizing safety, innovation, and efficiency.

## OUR DEDICATED **WORKFORCE**

A united team of experts and talents, driving excellence in construction. Guided by Mr. Alur's principles, our workforce ensures top-quality projects and industry leadership.

The success of M/s S S Alur Construction Company is a testament to our dedicated workforce. As a multidomain infrastructure company, we recognize that our strength lies in our people. Our team is a diverse blend of experienced professionals, skilled workers, innovative engineers, and dynamic young talents who are united by a common goal: to deliver top-notch quality projects on time.

The strong work ethic, integrity, and commitment to excellence that our founder, Mr. Alur, imbued into the company's ethos have become the guiding principles for our workforce. Each member of our team understands their role in maintaining the high standards set by Mr. Alur and is committed to upholding these principles in their daily work.

Our employees are not just workers; they are valuable assets to our organization. Their expertise and dedication have made us a leader in the construction industry and have contributed to our ability to undertake large and complex projects. We attribute our growth, resilience, and reputation in the industry to the hard work and dedication of our workforce.

### **Commitment to Collaboration**

At S S Alur Construction Company, collaboration is at the heart of everything we do. We work closely with our clients, communities, and stakeholders to understand their needs and deliver results that exceed expectations. Our team is dedicated to providing high-quality, safe, and sustainable infrastructure that drives societal progress and enhances the quality of life for everyone.

**Skilled Workers**

**Innovative Engineers**

**Quality Projects**

**Work Ethics**

# OUR INTEGRATED SERVICES

## Infrastructure Development

We specialize in constructing roads, bridges, canals, and highways with expertise in planning, design, and execution. Our skilled team creates infrastructure that fosters community growth and development, serving both practical and impactful purposes.

## Airport Construction

Our expertise extends to the aerospace industry, showcased through our benchmark project - the Greenfield Airport at Vijayapura. From runways to taxiways, airside to cityside pavements, our airport projects meet international safety and efficiency standards.

## Irrigation Projects

We play a critical role in creating effective irrigation systems that support agriculture and regional water management strategies. Using modern technologies, we build sustainable and efficient irrigation structures.

## Manufacturing Services

Further enhancing our service scope, we are involved in the manufacturing of stone aggregates and M-Sand. With state-of-the-art crushers and an advanced M-Sand unit, we ensure that we supply high-quality materials for construction projects.

## Concrete and Asphalt Production

To support our construction services, we operate RMC batching plants for high-quality concrete and Asphalt Batching Plants for asphalt production, ensuring quality, availability, and timely delivery of essential materials for our projects.

## Modern Fleet

Complementing our diverse services is our modern fleet of construction machinery and vehicles, enabling efficient project management and timely completion.

# POWERFUL FLEET FOR SEAMLESS CONSTRUCTION

From mining to road building, our diverse fleet ensures efficient transportation, smooth road surfaces, & high-quality construction.

## *Equipment & Machinaries*

Details	Company	Numbers
Bitumen Batch Mix Plant (120TPH Capacity)	Ammann Apollo	1
Bitumin Plant(90/120 TPH Capcity)	Ammann Apollo	1

# POWERFUL FLEET FOR SEAMLESS CONSTRUCTION

From mining to road building, our diverse fleet ensures efficient transportation, smooth road surfaces, & high-quality construction. With leading brands like Tata Motors, Schwing stetter Writgen Group, Volvo CE, and more, we have the right equipment for every project.

## TIPPER

Fleet Sourced from Tata Motors, Ashok Leyland, AMW, Bharat benz. The equipment is used for transporting asphalt mix material, aggregates and soil.

## MINING TRUCKS

Fleet of mining trucks from MAN and Tata. These trucks are used for transporting boulders and overburden materials at mining project sites. The trucks are equipped to perform even at steep gradients.

## READY-MIX-CONCRETE PLANT

The Ready Mix Concrete batching plant mixes ingredients like water, aggregate, sand, cement and admixture to create concrete. RMC plants sourced from Schwing Stetter.

## SLIP-FORM PAVER

The Slip Form Paver compacts concrete and smoothens road surface under construction. The equipment avoids undulations by providing continuous micro level controls to the operator.

## BITUMEN PAVER

The Bitumen Paver is used to lay asphalt and lean concrete on roads. It provides minor compaction before the asphalt is further compacted by a roller. Bitumen Pavers sourced from Wirtgen Group, Volvo CE & Apollo.

## SOIL COMPACTOR

A soil compactor is used to compact soil, gravel, and concrete during construction of roads and foundations. fleet sourced from Case, L&T and Volvo.

Driving construction excellence with a powerful feet, we pave the way to success from mining to road building.

### **TANDEM ROLLER**

The Tandem Roller gives high compaction performance, speed and grade ability to maximize productivity while providing exceptional reliability and durability. Rollers sourced from Wirtgen Group, IR, Case and Volvo.

### **BITUMEN BATCH MIX PLANT**

The Bitumen Batch Mix Plant is used to heat bitumen, filler material & aggregates. The plant also mixes the materials to produce hot mix asphalt. Plants with a capacity of upto 120 tonnes per hour sourced from Ammann Apollo.

### **WHEEL LOADER**

Versatile Wheel Loader: Shift, Load, and Push with ease. Robust construction, large wheels make it ideal for handling heavy materials. Sourced from Caterpillar & SDLG.

### **BACKHOE LOADER**

The Backhoe Loader is a multi-utility equipment used for construction, small demolitions, light transportation of building materials, excavation, loading material, and breaking Asphalt Loaders sourced from JCB, L&T & case.

### **TRANSIT MIXER**

The Transit Mixer is used for transporting concrete, mortar and ready mix material from a concrete batching plant to sites. Transit Mixers manufactured by Schwing Stetter.

### **MOTOR GRADER**

A versatile construction machine for levelling and smoothing surfaces, crucial for road construction and maintenance. Its precise control & maneuverability ensure accurate gradients and slopes in various projects.

Our Range of Essential Equipment Ensures Efficiency and Precision on every Project. From Stone Crushing to Road Paving, We've Got You Covered!

### 3 STAGE STONE CRUSHER

3 Stage Stone Crusher: Efficiently crushes and processes large stones into smaller sizes for construction purposes, ensuring high output and precision in shaping aggregates. Essential equipment for reliable.

### AJAX FIORI SELF LOADER

Ajax Fiori Self Loader: Compact and efficient self-loading concrete mixer that offers easy & quick transportation of concrete on construction sites, improving productivity and reducing manual labour.

### EXCAVATORS

Powerful and versatile machines designed for heavy-duty digging, trenching, and material handling tasks on construction sites. Engineered for efficiency and reliability, ensuring optimal performance in various challenging environments.

### BITUMEN DISTRIBUTOR

Essential equipment used for uniform and precise distribution of bitumen on road surfaces during asphalt laying. Ensures efficient and smooth application, contributing to the overall quality and durability of the road construction.

### MECHANICAL BROOMER

A versatile machine used for effective road sweeping and cleaning, removing dust, debris, and loose particles from road surfaces, ensuring a clean and safe environment.

### AIR COMPRESSOR

An essential equipment for various construction tasks, providing a reliable source of compressed air to power pneumatic tools and machinery, ensuring efficient and smooth operations on the job site.

Our Diverse Fleet of Equipment Ensures Precision, Efficiency, and Durability on Every Project. From Cranes to Tractors, We've Got You Covered!

### CRANE

A versatile and robust crane with a 15-tonne lifting capacity, designed to efficiently transport heavy loads and materials on construction sites, ensuring smooth and safe operations.

### PNEUMATIC TYRED ROLLER

A specialized compaction equipment with rubber tires, ideal for achieving smooth and uniform compaction on various road surfaces, ensuring excellent stability and performance during road construction and maintenance.

### CONCRETE BOOM PUMP

The Concrete Boom Pump is attached to a truck or longer units on semi-trailers. It uses a remote - controlled articulation robotic arm (called a boom) to place concrete accurately. SSAC owns Concrete Boom Pump sourced from Putzmeister of 36M.

### TRACTOR

Tractors are an essential part of our fleet at M/s S S Alur Construction Company, used for hauling, site preparation, and equipment maneuvering. These versatile, high-powered machines can handle multiple tasks, ensuring efficiency and durability in challenging terrains.

### PICKUP TRUCK

A versatile light-duty vehicle with an open cargo bed at the rear, designed for transporting goods, equipment, and passengers, suitable for both urban and off-road use.

### WMM PLANT

A high-capacity Wet Mix Macadam Plant designed for efficient mixing of aggregates, water, and binder, producing superior quality base and sub-base materials for road construction projects.

KEY

# PROJECTS

At M/s S S Alur Construction Company, we firmly believe in the adage, 'Actions speak louder than words.' Here, we showcase two of our marquee projects that underscore our commitment to quality, safety, sustainability, and efficient delivery.

Development of  
Greenfield

## **AIRPORT AT VIJAYAPURA, KARNATAKA**

Our current flagship project is the Greenfield Airport development in Vijayapura, valued at INR 215 crores. Commissioned by the Karnataka PWD and KSIIDC, this challenging project involves the construction of a runway, apron, taxiways, isolation bay, and extensive airside and cityside pavements, aiming to accommodate Airbus A320 or equivalent aircraft.

This project holds tremendous strategic value as it is set to significantly boost the region's connectivity and economic prospects. However, the project's complexity due to its geographical location demands a high level of precision, vigilance and expertise. This includes conducting safe blasting activities in major areas.

Our dedicated team of professionals is intensely focused on delivering the project before the stipulated deadline without any compromise on safety, quality, or environmental standards. Our deep-rooted commitment to excellence makes us confident of making this airport a significant landmark in the region.

*Building pathways to progress and pioneering the future of infrastructure. With unwavering commitment to excellence, our projects connect communities, enhance economy, and leave a lasting impact on the landscape.*

## Development of Roads

### **MUDHOL BYPASS ROAD, KARNATAKA**

We take immense pride in our successful completion of the Mudhol Bypass Road project in Karnataka. This venture comprised the construction of a 10-kilometer four-lane bypass road to alleviate congestion in the town of Mudhol. The scope of the project also included the construction of major bridges.

Delivering the project within the agreed time frame and budget, we received widespread appreciation for our meticulous attention to quality, safety, and sustainability.

Beyond these, we have an extensive portfolio of completed highway construction projects across Karnataka, India. Our advanced technology adoption and top-of-the-line equipment ensure efficient, safe, and on-budget project completion.

These key projects mirror M/s S S Alur Construction Company's unwavering commitment to excellence in action. They demonstrate our abilities to tackle challenges, deliver high-quality work on time, and exceed client expectations, solidifying our reputation in the industry.

# LIST OF OUR OUR ONGOING PROJECTS

Description	Department	Tender Amount
PKG-754 A) Improvements to road Madhugiri-Hindupura SH-158 from Ch 0.00 KM to 5.50 KM (in Selected reaches) in Madhugiri Taluk of Tumkur District. # HEALTH, SAFETY, & ENVIRONMENT (HSE)

At M/s SS Alur Construction Company, Health, Safety, and Environment (HSE) remain the pillars of our operational philosophy. We are deeply committed to ensuring that our employees, contractors, and the communities we serve experience the highest standards of health and safety, and that our activities contribute to a sustainable environment.

## Our Safety Vision

Our safety vision, ingrained by our founder, Shri Sharanappa S. Alur, focuses on embedding safe practices in every aspect of construction. We work tirelessly to minimize workplace accidents, ensuring a safe and secure environment for all team members. Beyond our workforce, we extend our efforts towards community safety, promoting awareness through road safety campaigns and health initiatives.

## Environmental Responsibility

Our commitment to sustainability is reflected in our ISO 14001:2015 certification for environmental management. We are dedicated to minimizing our environmental footprint by:

- Reducing waste generation at construction sites.
- Conserving natural resources through the use of alternative materials such as Fly Ash and GGBS.
- Implementing responsible project execution practices that minimize environmental impact.

We incorporate sustainability into our daily operations, adopting energy-efficient equipment, sourcing materials locally to reduce transportation, and employing rainwater harvesting systems for construction activities. By integrating these practices, we demonstrate our dedication to sustainable growth and eco-friendly infrastructure development.

## Health is Fundamental

Our safety vision, ingrained by our founder, Shri Sharanappa S. Alur, focuses on embedding safe practices in every aspect of construction. We work tirelessly to minimize workplace accidents, ensuring a safe and secure environment for all team members. Beyond our workforce, we extend our efforts towards community safety, promoting awareness through road safety campaigns and health initiatives.

## ISO 45001:2018 Certified - Our Commitment to Safety

Our commitment to safety is validated by our ISO 45001:2018 certification, which recognizes our robust processes for risk management and continual improvement in health and safety performance. We ensure:

- Rigorous risk assessments are conducted across all project sites.
- Safety protocols and equipment are up to date and followed by all members of the workforce.
- Continuous safety training programs are provided to our staff and contractors.

This emphasis on occupational health and safety enables us to foster a safe working environment, protecting our team from accidents and reducing operational disruptions.

## Commitment beyond Compliance

We go beyond just complying with statutory regulations — we aim to create a culture of proactive safety and environmental responsibility. This includes regular safety audits, HSE training programs, and encouraging our employees to be active participants in our safety culture. We actively engage with industry experts to improve our practices and maintain industry-leading standards.

At M/s SS Alur Construction Company, we understand that our responsibility extends far beyond delivering projects on time. We are deeply committed to the well-being of our employees, the safety of our communities, and minimizing our impact on the environment. We take pride in our efforts to contribute positively to the communities we serve and are committed to setting new benchmarks in health, safety, and environmental excellence.

# OUR VISION FOR THE FUTURE

As we look forward, M/s SS Alur Construction Company aims to leverage our rich legacy, extensive industry expertise, and strategic foresight to shape the future of infrastructure development in India.

## Our Strategic Focus Areas

### Innovation in Construction

Leading with cutting-edge, eco-friendly solutions. We remain dedicated to staying at the forefront of technological advancements, bringing innovative approaches to all our projects.

### Building World-Class Infrastructure

Developing smart highways, greenfield airports, and sustainable housing projects that drive growth, foster community connections, and create a positive societal impact.

### Expanding Nationwide

With a vision to become a leader across India, we continue to broaden our footprint beyond Karnataka, exploring new opportunities across the country.

### Enhancing Safety and Employee Welfare

Safety is at the core of our values. We are committed to creating a safer, healthier workplace environment and are continually enhancing safety measures for our employees and stakeholders.

### Creating Value for Stakeholders

Our objective remains to generate value for clients, employees, stakeholders, and the communities we work in, as we understand that our success is closely tied to theirs.

With a dedicated team, strong values, and a commitment to excellence, M/s SS Alur Construction Company is ready to embrace the opportunities ahead. We are confident in achieving ambitious goals that drive India's infrastructure growth and positively impact society.

# SUSTAINABILITY INITIATIVES

At M/s S S Alur Construction Company, we are committed to building a sustainable future. Our sustainability efforts include:

## SOLAR POWER

We use solar power to meet energy needs at our camps, reducing our carbon footprint.

## RECYCLING AND REUSE

Aggregates sourced from dismantling pavement are reused in construction projects to minimize waste.

## FLY ASH UTILIZATION

We use fly ash sourced from thermal power plants in embankments to reduce the use of virgin materials.

## AFFORESTATION

We plant trees in camp areas to enhance green cover and contribute to the environment.

## RAINWATER HARVESTING

Water used in construction is sourced through rainwater harvesting systems.

M/s S S Alur Construction Company takes pride in integrating sustainable practices into every aspect of our operations. From harnessing renewable energy and promoting resource efficiency to enhancing green cover and conserving water, our initiatives reflect our unwavering commitment to building a greener and more sustainable future. Together, we are paving the way for environmentally responsible growth.

## WORKSHOP MAINTENANCE

A cornerstone of our operational excellence at M/s S S Alur Construction Company is our strategically located workshops. These workshops have been set up across multiple locations, allowing us to maintain our extensive fleet of vehicles and equipment in-house and round-the-clock.

The workshops, vital cogs in our operational wheel, are expertly led by Mr. E Praveenkumar, Head of Plants & Machinery. Mr. Praveenkumar, a seasoned professional with over three decades of experience in the field, is one of the foundational members of our company. His extensive knowledge in the realm of plant machinery and maintenance management is invaluable to our operations.

Under Mr. Praveenkumar's astute leadership, we have assembled a capable & dedicated team of professionals who work tirelessly to ensure the optimal performance of our fleet. This diligent team is always ready to face and overcome any challenge that may arise, thereby avoiding potential delays in our project timelines.

## ***Our Operational Excellence:***

*Strategically located workshops enable optimal fleet performance, timely project execution, and superior quality infrastructure for regional development.*

By investing in the continuous upgradation and maintenance of our machinery, we enhance our operational efficiency, uphold safety standards, and ultimately deliver superior quality in our construction projects. This emphasis on effective maintenance aligns with our mission of delivering high-quality infrastructure for the development of our region.

Our robust in-house maintenance capabilities give us an edge in delivering our projects efficiently and on time. With well-equipped workshops and a committed team of professionals, we can rapidly respond to maintenance needs, ensuring minimal downtime and sustaining the pace of our project execution.
