

# COMPLETE WALKAROUND

Complete Walkaround is a new and fast growing YouTube channel with laser focus on buying and owning General Aviation aircraft. We appeal to current and future aircraft owners who are interested in buying aircraft and the costs and implications of aircraft ownership.

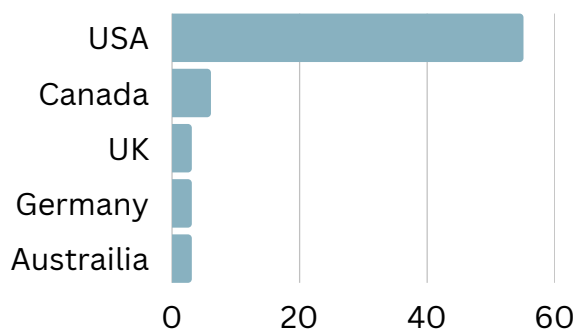

Our viewers are interested in the nitty-gritty details of owning aircraft. Complete Walkaround quite possibly has the highest ratio of aircraft owners of any channel on YouTube.

Aircraft and topics we talk about on Complete Walkaround never go out of style. Our videos continue to get views months and years after their released.
