

Quick Deploy

MIGRATE TO INTUNE - IN 5 DAYS

Introduction

ICA-ITS is providing a limited opportunity to nursery, primary, secondary schools or any SME business in the UK. This is to move 100 user devices to Microsoft Intune.

Microsoft Intune is a cloud-based endpoint management solution. It manages user access to organizational resources and simplifies app and device management across your many devices, including mobile devices, desktop computers, and virtual endpoints.

Intune allows organisations to ensure to access and protect data across both Corporate and Personal devices.

Intune provides the following the features:

1. Simplifies App Management
2. Automates Policy deployment
3. Self-Service with Company Portal
4. Integrates with Mobile Defense services

Quick Deploy Approach

Align & Scope

- ❖ Review current device personas
