sDNA Repair Shot

A HIGH-PURITY INJECTABLE SOLUTION FORMULATED WITH LOW MOLECULAR WEIGHT SALMON DNA TO SUPPORT SKIN REGENERATION AND REPAIR. DESIGNED FOR MESOTHERAPY PROTOCOLS, IT HELPS IMPROVE SKIN TEXTURE, HYDRATION, AND OVERALL DERMAL VITALITY.

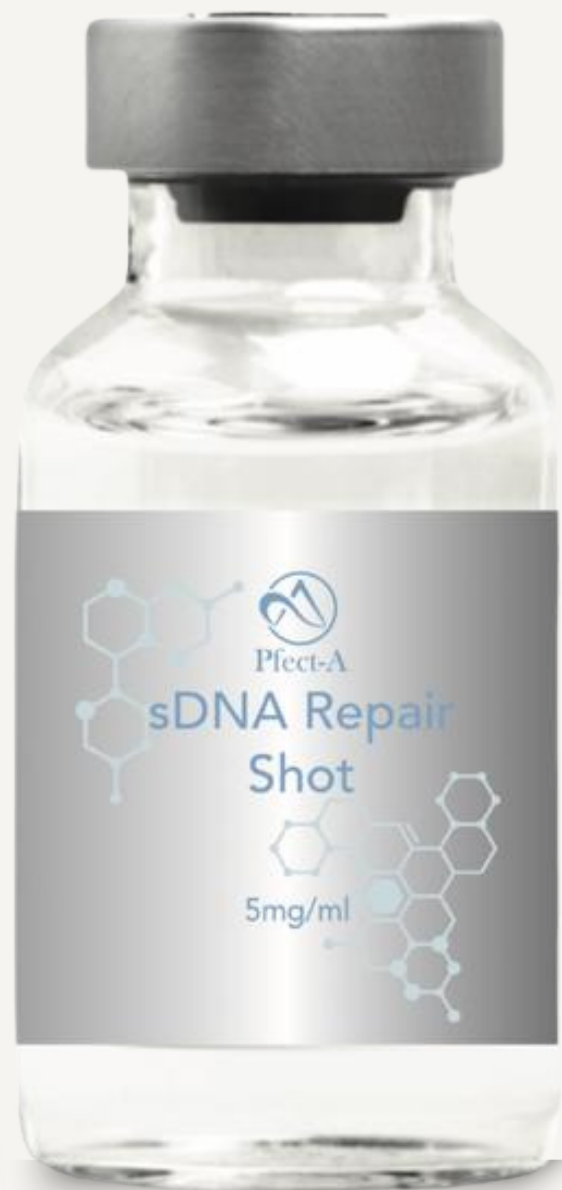

(ADVANCED CELLULAR REPAIR)

(INTENSE HYDRATION + REJUVENATION)

sDNA REPAIR SHOT

STERILE SALMON DNA SOLUTION FOR MESOTHERAPY

Pfect-A sDNA Repair Shot is a premium sterile solution formulated with high-purity salmon-derived DNA (Polynucleotide) – a biomimetic compound known for its powerful skin regeneration, anti-inflammatory, and hydration-enhancing properties. Ideal for use as a mesotherapy booster, or as a Microneedling booster. It stimulates tissue repair, improves skin texture, and enhances overall skin health.

(ADVANCED CELLULAR REPAIR) (INTENSE HYDRATION) (SKIN REJUVENATION)

INDICATIONS

- * Dull, dehydrated skin
- * Fine lines and wrinkles
- * Sensitive or damaged skin
- * Post-laser or aesthetic procedures
- * Skin in need of repair and rejuvenation

FORMULATION INTEGRITY

- * Sterile and preservative-free
- * Free from artificial colorants, fragrances, and alcohol
- * Single-use vial to ensure maximum safety and efficacy

INTENDED EFFECTS

sDNA REPAIR SHOT

CELLULAR REPAIR & REGENERATION

Polynucleotides promote fibroblast activity, supporting DNA synthesis and cellular repair for healthier, more resilient skin.

DEEP HYDRATION

Restores skin's moisture balance, improving elasticity and softness with long-lasting hydration.

SKIN BRIGHTENING & CLARITY

Reduces dullness and uneven skin tone, revealing a radiant and refreshed complexion.

BARRIER STRENGTHENING

Helps restore the skin's natural protective barrier, minimizing trans-epidermal water loss and environmental stress.

ANTI-AGING EFFECTS

Visibly reduces the appearance of fine lines and wrinkles by stimulating collagen synthesis and dermal remodeling.

POST-PROCEDURE RECOVERY SUPPORT

Ideal for use after laser, microneedling, or peeling treatments to accelerate healing and reduce inflammation.

PROTOCOL

sDNA REPAIR SHOT

APPLICATION METHODS:

- * Microneedling (0.25–1.0mm)
- * Manual microinjections or mesogun
- * Dermaroller or meso stamp

RECOMMENDED PROTOCOL:

- * Session Frequency: 1 session every 10–14 days
- * Treatment Course: 4–6 sessions for optimal results
- * Maintenance: 1 session every 4–6 weeks

Volume per session: For maximum results, one 2ml bottle per session is recommended.

POST-CARE TIP:

- * Advise clients to avoid active skincare and sun exposure for 24–48 hours post-treatment.
- * Use Repair Cream only

Important: Professional use only.

Glutathione Solution

A HIGH-PURITY, INJECTABLE GLUTATHIONE FORMULATION INDICATED FOR ANTIOXIDANT SUPPORT, DETOXIFICATION, AND BRIGHTENING OF UNEVEN SKIN TONE. DESIGNED FOR USE IN MESOTHERAPY OR AESTHETIC INFUSION PROTOCOLS, IT HELPS NEUTRALIZE OXIDATIVE STRESS, REDUCE MELANIN ACTIVITY, AND SUPPORT OVERALL SKIN CLARITY.

(RADIANCE REVIVAL)

(POWERFUL DETOX)

(SKIN DEFENSE)

GLUTATHIONE SOLUTION

STERILE ANTIOXIDANT BRIGHTENING BOOSTER

Pfect-A Glutathione Solution is a sterile, high-purity antioxidant booster designed for professional mesotherapy treatments. Formulated with reduced glutathione, a master antioxidant naturally present in the skin, this solution offers brightening, detoxifying, and anti-aging benefits at the cellular level. Used alone or in combination, it helps neutralize free radicals, even skin tone, and promote detoxification for clearer skin.

(RADIANCE REVIVAL)

(POWERFUL DETOX)

(SKIN DEFENSE)

INDICATIONS

- * Dull, tired-looking skin
- * Uneven pigmentation and dark spots
- * Skin exposed to oxidative stress
- * Post-treatment antioxidant support
- * Skin brightening and detoxification

FORMULATION INTEGRITY

- * Sterile and preservative-free
- * Free from artificial colorants, fragrances, and alcohol
- * Single-use vial to ensure maximum safety and efficacy

INTENDED EFFECTS

GLUTATHIONE SOLUTION

BRIGHTENING & EVEN SKIN TONE

Inhibits melanin synthesis to help reduce hyperpigmentation, age spots, and dullness.

ANTIOXIDANT PROTECTION

Glutathione scavenges free radicals, helping to prevent oxidative stress and premature aging caused by UV and environmental aggressors.

REVITALIZATION & GLOW

Boosts overall skin clarity and radiance, leaving skin looking luminous, balanced, and rejuvenated.

SUPPORTS SKIN REPAIR

Assists in tissue recovery post-procedures and protects against inflammation-induced damage.

DETOXIFICATION SUPPORT

Promotes natural detoxification processes within the skin, aiding in the removal of toxins and impurities for a clearer complexion.

PROTOCOL

GLUTATHIONE SOLUTION

APPLICATION METHODS:

- * Microneedling (0.25–1.0mm)
- * Manual microinjections or mesogun
- * Dermastamp or dermaroller

RECOMMENDED PROTOCOL:

- * Session Frequency: Once every 7–14 days
- * Treatment Course: 4–6 sessions for best results
- * Maintenance: 1 session every 4–6 weeks or as needed

Volume per session: For maximum results, one 2ml bottle per session is recommended.

COMBINATION USE:

- * Can be safely combined with hyaluronic acid, vitamin C, or PDRN in custom mesotherapy cocktails.

POST-CARE TIP:

- * Advise clients to avoid active skincare and sun exposure for 24–48 hours post-treatment.
- * Use Repair Cream only

Important: Professional use only.

Hair Boost Solution

A MULTI-ACTIVE STERILE SOLUTION FORMULATED TO SUPPORT SCALP REVITALIZATION AND HAIR FOLLICLE FUNCTION. INDICATED FOR USE IN MESOTHERAPY PROTOCOLS TARGETING HAIR THINNING, WEAKENED FOLLICLES, AND SCALP IMBALANCE.

(STIMULATE GROWTH)

(STRENGTHEN ROOTS)

(REVITALIZE SCALP)

HAIR BOOST SOLUTION

STERILE SCALP MESOTHERAPY COCKTAIL

Pfect-A Hair Boost Solution is a sterile, multi-active formula developed to address hair thinning, stimulate regrowth, and restore scalp health via mesotherapy. It combines plant stem cells, peptides, botanical extracts, and biomimetic growth factors to activate follicles, reduce hair fall, and promote denser, healthier hair. Suitable for both men and women, it's ideal for prevention, post-hair loss care, and maintenance. This high-performance solution supports hair regeneration and scalp health, making it suitable for trichology protocols, postpartum recovery, and hair loss prevention.

(STIMULATE GROWTH)

(STRENGTHEN ROOTS)

(REVITALIZE SCALP)

INDICATIONS

- * Male or female pattern baldness
- * Telogen effluvium (excessive shedding)
- * Thinning or weak hair
- * Dry, flaky, or inflamed scalp
- * Postpartum hair loss support

FORMULATION INTEGRITY

- * Sterile and preservative-free
- * Free from artificial colorants, fragrances, and alcohol
- * Single-use vial to ensure maximum safety and efficacy

INTENDED EFFECTS

HAIR BOOST SOLUTION

MULTI-PEPTIDE TECHNOLOGY

1. Stimulate the anagen (growth) phase of the hair cycle, increase scalp microcirculation, and anchor hair more firmly in the follicle:

- * Biotinoyl Tripeptide-1
- * Acetyl Tetrapeptide-3
- * Acetyl Hexapeptide-1
- * Tetrapeptide-32
- * Copper Tripeptide-1

2. Enhances keratin production, supporting stronger, thicker hair strands.

- * Myristoyl Pentapeptide-17

3. Biomimetic peptides that mimic natural growth factors to boost hair density, prevent hair thinning, and nourish follicular stem cells.

- * sh-Polypeptides & Oligopeptides
(e.g., sh-Polypeptide-9, -59, -4, -13, -3, sh-Oligopeptide-2)

INTENDED EFFECTS

HAIR BOOST SOLUTION

STEM CELL-DERIVED GROWTH FACTORS

Plant Stem Cell: Delivers regenerative bio-signals that help reawaken dormant follicles, repair scalp tissue, and improve cellular communication.

BOTANICAL SCALP SUPPORT

- * Rehmannia Glutinosa Root Extract
- * Achyranthes Bidentata Root Extract
- * Acanthopanax Sessiliflorus Bark Extract

These traditional medicinal herbs offer anti-inflammatory, antioxidant, and microcirculation-enhancing properties, supporting a balanced, revitalized scalp.

NUTRITIONAL STRENGTH & HYDRATION

Biotin: Strengthens keratin structures, improves hair quality, and reduces breakage.

Sodium Hyaluronate: Delivers intense hydration to the scalp, reducing inflammation and creating a healthy environment for growth.

PROVEN HAIR GROWTH STIMULATORS

Diaminopyrimidine Oxide: Clinically shown to prolong the anagen phase, stimulate vascular supply, and improve nutrient delivery to follicles.

PROTOCOL

HAIR BOOST SOLUTION

APPLICATION METHODS:

- * Microinjections into the scalp (manual or mesogun)
- * Microneedling with dermapen or dermastamp (0.25–0.5 mm)

RECOMMENDED PROTOCOL:

- * Initial Treatment: Once a week for 4–6 weeks
- * Maintenance: Once every 2–4 weeks thereafter

Volume per session: 1–2 ml depending on the area treated

Important: Professional use only.

Hyal Plus Solution

A STERILE HYDRATING COMPLEX FORMULATED WITH
LOW AND HIGH MOLECULAR WEIGHT HYALURONIC ACID
TO DELIVER BOTH DEEP DERMAL HYDRATION AND
SURFACE-LEVEL MOISTURE RETENTION.

(LAYERED HYDRATION)

(SKIN PLUMPING)

(SMOOTH TEXTURE)

HYAL PLUS SOLUTION

DUAL-MOLECULAR WEIGHT HYALURONIC ACID BOOSTER

Pfect-A Hyal Plus Solution is a sterile, mesotherapy-grade hydrating booster featuring both low and high molecular weight hyaluronic acid (HA). It delivers multi-depth hydration to plump the skin, improve elasticity, and restore a smooth, dewy appearance. Ideal for dehydrated, tired, or crepey skin, this advanced HA complex can be used alone or combined with other aesthetic actives for synergistic mesotherapy treatments.

(STIMULATE GROWTH)

(STRENGTHEN ROOTS)

(REVITALIZE SCALP)

INDICATIONS

- * Dehydrated, dull, or crepey skin
- * Fine lines, wrinkles, and loss of volume
- * Sensitive, post-procedure skin
- * Skin in need of deep hydration and repair
- * Use as a hydration base in meso-cocktails

FORMULATION INTEGRITY

- * Sterile and preservative-free
- * Free from artificial colorants, fragrances, and alcohol
- * Single-use vial to ensure maximum safety and efficacy

INTENDED EFFECTS

HYAL PLUS SOLUTION

MULTI-LAYER HYDRATION

High molecular weight HA forms a moisture-retentive barrier on the skin surface.

Low molecular weight HA penetrates deeper layers for long-lasting internal hydration.

PLUMPS FINE LINES & SMOOTHS TEXTURE

Boosts dermal volume and elasticity, reducing the appearance of fine lines and wrinkles.

RESTORES RADIANCE & SUPPLENESS

Brings back a youthful, healthy glow by improving skin tone and softness.

ENHANCES SKIN BARRIER FUNCTION

Reinforces the skin's natural defense system, preventing trans-epidermal water loss and environmental damage.

POST-PROCEDURE RECOVERY SUPPORT

Calms and hydrates skin after lasers, microneedling, or peeling to accelerate repair and reduce irritation.

PROTOCOL

HYAL PLUS SOLUTION

APPLICATION METHODS:

- * Microneedling (0.25–1.0mm)
- * Manual microinjections or mesogun
- * Dermaroller or meso stamp

RECOMMENDED PROTOCOL:

- * Session Frequency: 1 session every 10–14 days
- * Treatment Course: 4–6 sessions
- * Maintenance: 1 session every 4–6 weeks

Volume per session: For maximum results, use one 2ml bottle per session.

COMBINATION USE:

- * Ideal as a base with peptides, glutathione, or salmon DNA for advanced treatment synergy.

Important: Professional use only.
