**How rebates work:** Fees are paid in full upfront. We process your Medicare rebate on the spot, or it is deposited to your linked bank account within 1-2 business days, subject to eligibility.

**No Medicare?** You can use your receipt to claim from your private health insurer, if eligible.

**This is a cashless practice — EFTPOS and credit card payments only. A surcharge applies to online payments.**

Fees are set individually by each doctor at MedFirst and are subject to change without notice.  
Medicare rebates shown reflect the schedule effective 1 July 2026 and are current as of the date above.
