

**Using average costs, here is an overall cost comparison with a Solaris Toilet System:**

|                             | <u>Sewer System</u> | <u>Septic System</u> | <u>ST with Tank</u> |
|-----------------------------|---------------------|----------------------|---------------------|
| Toilet Cost                 | \$250               | \$250                | \$3,000             |
| Toilet Installation Cost    | \$1,000             | \$1,000              | \$2,000             |
| Septic Tank/Drain Field     | \$0                 | \$10,000             | \$0                 |
| Sewer Connection            | \$10,000            | \$0                  | \$0                 |
| <b>Totals:</b>              | <b>\$13,250</b>     | <b>\$11,250</b>      | <b>\$5,000</b>      |
| <b><u>Annual Costs:</u></b> |                     |                      |                     |
| Water Bill (for toilet)     | \$250               | \$250                | \$0                 |
| Sewer Bill (annual)         | \$600               | \$0                  | \$0                 |
| Tank Emptying               | \$0                 | \$100*               | \$300               |
| <b>Totals:</b>              | <b>\$850</b>        | <b>\$350</b>         | <b>\$300</b>        |

*(\*Regular septic tank emptied once every 3 years at a cost of \$300.)*
