A League of Its Own

LLNA handles products manufactured by Leonessa Group, a Global Industrial Group with more than 50 years of presence in the market, counting on their own facilities in Europe and China and a network of long time established cooperation with distributors and agents worldwide

Operating with an extremely lean structure, LLNA is characterized by **flexibility, adaptability, proactivity, responsiveness** and **cost effectiveness**. These aspects which are foundational to the business relationship facilitate **partnering** with **Customers** to ensure optimal value is provided.

LLNA has been operating in North America for more than 15 years. On Jan 1, 2015, La Leonessa established its own sales organization and N.A. Headquarters strategically located in Indianapolis, Indiana in order to resolve and respond quickly to our valued customers on questions concerning our products and related components.
