**Join us and let's keep
Tanglewood Park the beautiful
and peaceful park that it is!**

Forsyth County has proposed a 50,000 sq foot events center in Tanglewood Park between the horse stables and shelter #2. This project includes barns for 200 horses, horse trailer parking, and additional paved parking for 350 vehicles. **Save Tanglewood** opposes this project because it will:

- Spoil the natural beauty of the park, impair recreational users' enjoyment of the park, and destroy wildlife habitat
- Consume limited county financial resources with little hope of returning the investment or breaking even
- Potentially endanger or displace the park's current horse population
- Contribute to storm water run-off and flooding within the park and surrounding neighborhoods
- Contribute to traffic congestion in the community

Tanglewood Park is not, nor should it be, a fairground. This is a quiet park where people recreate in the presence of nature. Please join us in defending this natural, historic, and cultural treasure from urbanization. Your voice will make a difference!
