

Notes

- 1) This set is designed to use the type 201A tubes with 5-volt 1/4-amp filaments.
- 2) A type 200 detector with 1-amp filament could be used.
- 3) Filament polarity (F+ and F-) reflect the connections in this unit and may differ from generic documentation.
- 4) Numbers on transformer windings are DC resistance in ohms.

PRELIMINARY
The information presented is believed to be correct.
However, it is subject to revision at any time.
