

MISCELLANEOUS NOTICES.

Trouble Should be Reported in Phelps.

The University Service Bureau requests that beginning immediately students report any trouble experienced with heat, light, or water at night, on Saturday afternoons, or on Sundays, to the Campus Police Office, located in Phelps Hall.

Dr. Johnston Will Lecture To-night.

At a meeting of the Yale Mineralogical Society in Room 181 Kirtland Hall to-night at 8, Dr. J. Johnston, Director of the Sterling Chemistry Laboratory, will give a lecture on "The Application of Physical Chemistry to Mineralogy and Geology." Professor Johnston through his connection with the Geophysical Laboratory for several years, his researches on carbonate equilibria, and as director of research in chemistry in the University, is an authority on geophysics and geochemistry. All members of the University are invited.

Germanic Club Will Meet To-night.

A journal meeting of the Germanic Club will be held in Room 12, Lampson Hall to-night at 7:30.

agher, H. Hendrick, A. Harris, Dr. H. A. Link, Reverend H. D. Perkins, A. W. Shaw, J. K. Selden, R. H. Thomas, R. V. Warner, R. M. Warner, Mr. Zueer.

Appointments for Medical Examinations.

The following men are to report at 109 College Street to-day for medical examinations at the times indicated:

- 8:20—J. M. Hoye, Div.; J. L. Mott, 1925; J. M. Valentine, Grad. and 1923.
- 8:50—C. W. Keirstead, Div.
- 9—J. R. Kidd, Divf.; J. E. Parsons, 1925.
- 9:15—E. S. Moyer, Div.; G. L. Paxton Jr., 1925; F. G. Perkins Jr., 1925.
- 9:45—L. M. Thomas Jr., Div.
- 10—J. E. Ford, Div.; W. D. Melcher, Div.
- 10:30—L. E. Phillips, Div.; D. I. Knowles, 1925.
- 11—A. Pesez, 1925; H. L. Phillips, 1925.
- 11:15—J. A. Phillips Jr., 1925; E. S. Pomeranz, 1925.
- 11:40—J. C. Pope, 1925; F. D. Pratt, 1925.
- 1—C. B. Mackes, Med.; S. Michalover, Med.
- 1:15—W. R. Miller, Med.; D. A. Mulvihill, Med.
- 2—M. Griboff, Med.; M. Griswold Jr., Med.
- 2:15—W. E. Hall, Med.; I. Hendrick, Med.
- 3—H. E. Klebanoff, Med.; A. V. Thayer, Law.
- 3:15—C. Krenz, Med.; A. B. Hulen, Div.
- 3:30—W. J. Logan, Med.
- 3:45—R. C. Norton, Med.
- 4—J. L. O'Brien, Med.; A. Cox Jr., Law.
- 4:15—T. W. O'Connell, Med.; C. B. Harbour, Div.

New Haven Alumni Hold Dinner at Lawn Club.

(Continued from page 1)

his unusual power of increasing his height by asking a member of the audience to stand beside him on the platform. Without any apparent effort he was able to increase his stature by several inches and to stretch his arms or legs to a greater length at will.

To conclude the program, the room was darkened and two reels of motion pictures were shown. Captain Lovejoy of this year's football team explained the features of the Dartmouth, Army, Princeton and Harvard games last fall as they were thrown on the screen. The triumph of the Yale crew at the Olympics last summer and the recent Freshman Rush completed the film, and the meeting was then adjourned.

Annual Winter Carnival Includes Diverse Events.

(Continued from page 1)

ticing in true hockey fashion. A pertinent suggestion that the out-door track be flooded to offer them a chance to improve their peculiar abilities was met with derision, and when the suggestion was then made that the University freeze Carnegie Pool it was very curtly received. However these men, like the team for which they are working, are determined to overcome all difficulties, and will, by their own admission, walk away with the race. Little can be discovered from the various Fraternity Relay Teams, but in the Publications Relay the News, in its own difinified manner, has decided to decisively defeat its opponents.

The regular track events will be: 40-yard Dash, 30-yard Dash, 600-yard Run,

1000-yard Run, 45-yard High Hurdles, Broad Jump, High Jump, Pole Vault (Friday) and 12-lb. Shot Put. These entries are not open to Y men. Points scored in them are to count in the series of Inter-Class Meets, of which the Carnival will be considered the second. Places count 5, 3, and 1 respectively. Gold, silver and bronze medals will be awarded to the three place winners in each event.

The pentathlon for the "Johnny Mack" Trophy will consist of the five following events for all entries, and is open to any undergraduates: 40-yard Dash, 300-yard Dash, High Jump, Broad Jump, and Shot Put.

In the special events a Sports Relay will be organized as well as other scheduled races. The cup offered in the Competitors' Relay will be placed in competition in succeeding years.

Claims Colleges Neglect To Train Radio Engineers.

(Continued from page 1)

that may be, the science of radio provokes a challenge to educators which they must take up sooner or later, and it is a losing proposition for the United States as long as they are permitted to delay.

"In the final analysis it is an economic question. No prejudices, no preferences can affect this vital fact. A manufacturer is vitally dependent on his engineering department, and if he can best be served by Northern European talent, it will be chosen.

Bowdoin Barely Defeated By Yale Junior Fencers.

(Continued from page 1)

Brown, who made a clean sweep of his matches, was easily the star of the afternoon.

The University Fencing Team will leave Friday for the Southern trip, which will start with a match against Columbia that afternoon. This will be followed by a contest with the University of Pennsylvania Friday night, a meet with the Midshipmen at Annapolis Saturday afternoon, and an informal bout with the Washington Racquet Club Saturday night.

Spring Clothes

Our showing of woollens for the Spring of 1925 include the most wanted new colorings as well as the largest variety of imported materials that we have ever displayed.

Years of experience in making clothes for college men together with a recognized cutting and designing staff that is second to none should place us foremost in producing a suit favored by college men.

A CRANE PRESSURE REGULATOR WHICH TRANSFORMS HIGHER PRESSURES TO ANY CONSTANT PRESSURE

LOW PRESSURE STEAM FROM HIGH PRESSURE MAINS

Low pressure steam or air delivery direct from higher pressure mains is made uniform and dependable by Crane pressure regulators. Steam for small power units or low pressure heating, constant pressure steam for process heating, and compressed air for blasts, heaters and low pressure tools can be taken from higher pressure mains through this automatic valve at the highest

possible efficiency. Crane regulators are furnished with unions or flanged connections for any ordinary temperatures or working pressure. The economy of operation and unfailing delivery of these pressure regulators are typical of all Crane products. Crane country-wide service provides a complete line of valves, fittings and piping for any steam, water, oil or air system.
