# Another Great Radio and Audio Sale

**Auction Location** 608 Cleveland, Granbury, Texas, 76049, United States

**Auction Details**

Sargent Auction Service has been commissioned to sell at auction a large estate consisting of a wide variety of vintage audio and radio and assorted miscellaneous collectibles. Items are located at our auction house in Granbury, Texas and can be view Monday thru Friday prior to the sale by appointment. Contact the auctioneer to schedule. Where possible items have been tested. If indicated as "working", it means the item operated at some level. It may or may not mean the item is fully functional.

Regarding vacuum tubes offered in this sale, the auction company has made a sampling of the marked tube boxes in an attempt to verify that the tube number marked on the box top is indeed the tube inside the box. However, as every tube box has not been checked, the auctioneer does not guarantee all tube boxes are correctly marked. Again, if you have specific requests to verify type and/or quality of tube, contact the auctioneer directly at the number given elsewhere.

# Another Great Radio and Audio Sale

**Auction Location** 608 Cleveland, Granbury, Texas, 76049, United States

## Auction Details

Sargent Auction Service has been commissioned to sell at auction a large estate consisting of a wide variety of vintage audio and radio and assorted miscellaneous collectibles. Items are located at our auction house in Granbury, Texas and can be view Monday thru Friday prior to the sale by appointment. Contact the auctioneer to schedule. Where possible items have been tested. If indicated as "working", it means the item operated at some level. It may or may not mean the item is fully functional.

**Regarding vacuum tubes offered in this sale, the auction company has made a sampling of the marked tube boxes in an attempt to verify that the tube number marked on the box top is indeed the tube inside the box. However, as every tube box has not been checked, the auctioneer does not guarantee all tube boxes are correctly marked. Again, if you have specific requests to verify type and/or quality of tube, contact the auctioneer directly at the number given elsewhere.**

# Another Great Radio and Audio Sale

**Auction Location** 608 Cleveland, Granbury, Texas, 76049, United States

## Auction Details

Sargent Auction Service has been commissioned to sell at auction a large estate consisting of a wide variety of vintage audio and radio and assorted miscellaneous collectibles. Items are located at our auction house in Granbury, Texas and can be view Monday thru Friday prior to the sale by appointment. Contact the auctioneer to schedule. Where possible items have been tested. If indicated as "working", it means the item operated at some level. It may or may not mean the item is fully functional.

**Regarding vacuum tubes offered in this sale, the auction company has made a sampling of the marked tube boxes in an attempt to verify that the tube number marked on the box top is indeed the tube inside the box. However, as every tube box has not been checked, the auctioneer does not guarantee all tube boxes are correctly marked. Again, if you have specific requests to verify type and/or quality of tube, contact the auctioneer directly at the number given elsewhere.**

# Another Great Radio and Audio Sale

**Auction Location** 608 Cleveland, Granbury, Texas, 76049, United States

## Auction Details

Sargent Auction Service has been commissioned to sell at auction a large estate consisting of a wide variety of vintage audio and radio and assorted miscellaneous collectibles. Items are located at our auction house in Granbury, Texas and can be view Monday thru Friday prior to the sale by appointment. Contact the auctioneer to schedule. Where possible items have been tested. If indicated as "working", it means the item operated at some level. It may or may not mean the item is fully functional.

**Regarding vacuum tubes offered in this sale, the auction company has made a sampling of the marked tube boxes in an attempt to verify that the tube number marked on the box top is indeed the tube inside the box. However, as every tube box has not been checked, the auctioneer does not guarantee all tube boxes are correctly marked. Again, if you have specific requests to verify type and/or quality of tube, contact the auctioneer directly at the number given elsewhere.**

Items are located at our auction house in Granbury, Texas and can be view Monday thru Friday prior to the sale by appointment. Contact the auctioneer to schedule. Where possible items have been tested. If indicated as "working", it means the item operated at some level. It may or may not mean the item is fully functional.

Regarding vacuum tubes offered in this sale, the auction company has made a sampling of the marked tube boxes in an attempt to verify that the tube number marked on the box top is indeed the tube inside the box. However, as every tube box has not been checked, the auctioneer does not guarantee all tube boxes are correctly marked. Again, if you have specific requests to verify type and/or quality of tube, contact the auctioneer directly at the number given elsewhere.

# Another Great Radio and Audio Sale

Auction Location 608 Cleveland, Granbury, Texas, 76049, United States

### Auction Details

Sargent Auction Service has been commissioned to sell at auction a large estate consisting of a wide variety of vintage audio and radio and assorted miscellaneous collectibles. Items are located at our auction house in Granbury, Texas and can be view Monday thru Friday prior to the sale by appointment. Contact the auctioneer to schedule. Where possible items have been tested. If indicated as "working", it means the item operated at some level. It may or may not mean the item is fully functional.

Regarding vacuum tubes offered in this sale, the auction company has made a sampling of the marked tube boxes in an attempt to verify that the tube number marked on the box top is indeed the tube inside the box. However, as every tube box has not been checked, the auctioneer does not guarantee all tube boxes are correctly marked. Again, if you have specific requests to verify type and/or quality of tube, contact the auctioneer directly at the number given elsewhere.
