# Another Great Radio Auction Featuring Radiola

**Auction Location** 608 Cleveland Road, Granbury, Texas, 76049, United States

## Auction Details

Sargent Auction Service has been contracted to sell at auction a fantastic collection of early radio and wireless radio equipment from four collectors. While we have a variety of really nice electric 30's and 40's radios, if you fancy the early radios that started it all, then this is the sale for you.

Where possible, every attempt has been made to determine status of each item in this auction, both physical and electrical, at time of testing. However, no guarantees are expressed or implied and all items are sold "as is where is". An indication of "works" simply means minimal testing was done and item does operate at some level. Additional repairs may or may not be necessary.

# Another Great Radio Auction Featuring Radiola

**Auction Location** 608 Cleveland Road, Granbury, Texas, 76049, United States

## Auction Details

Sargent Auction Service has been contracted to sell at auction a fantastic collection of early radio and wireless radio equipment from four collectors. While we have a variety of really nice electric 30's and 40's radios, if you fancy the early radios that started it all, then this is the sale for you.

Where possible, every attempt has been made to determine status of each item in this auction, both physical and electrical, at time of testing. However, no guarantees are expressed or implied and all items are sold "as is where is". An indication of "works" simply means minimal testing was done and item does operate at some level. Additional repairs may or may not be necessary.

# Another Great Radio Auction Featuring Radiola

**Auction Location** 608 Cleveland Road, Granbury, Texas, 76049, United States

## Auction Details

Sargent Auction Service has been contracted to sell at auction a fantastic collection of early radio and wireless radio equipment from four collectors. While we have a variety of really nice electric 30's and 40's radios, if you fancy the early radios that started it all, then this is the sale for you.

Where possible, every attempt has been made to determine status of each item in this auction, both physical and electrical, at time of testing. However, no guarantees are expressed or implied and all items are sold "as is where is". An indication of "works" simply means minimal testing was done and item does operate at some level. Additional repairs may or may not be necessary.

# Another Great Radio Auction Featuring Radiola

**Auction Location** 608 Cleveland Road, Granbury, Texas, 76049, United States

## Auction Details

Sargent Auction Service has been contracted to sell at auction a fantastic collection of early radio and wireless radio equipment from four collectors. While we have a variety of really nice electric 30's and 40's radios, if you fancy the early radios that started it all, then this is the sale for you.

Where possible, every attempt has been made to determine status of each item in this auction, both physical and electrical, at time of testing. However, no guarantees are expressed or implied and all items are sold "as is where is". An indication of "works" simply means minimal testing was done and item does operate at some level. Additional repairs may or may not be necessary.

2022 Mar 26  
10:00 UTC-5: EST/CDT
