

ALKACHLOR H.D.

Technical Data	Chlorinated Degreaser & Cleaner			
	DESCRIPTION:	Semi-opaque liquid, chlorine odour.		
USED FOR:	<p>ALKACHLOR HD is a heavy duty chlorinated cleaner and degreaser, used in food processing establishments, schools, restaurants, hotels, motels, institutions, health care facilities, etc., and anywhere that cleaning and sanitizing are required.</p> <p>ALKACHLOR HD is built with special penetrants and wetting agents to penetrate into organic masses and soils carrying the sanitizing chlorine molecule and sequestrants with it. It's potash enhanced detergency and anti redeposition characteristics allow for a deeper and faster removal of soils and create a greater surface area for the active chlorine molecule to oxidize organic materials.</p>			
ADVANTAGES:	<p>Heavy duty industrial concentrate. Readily dilutable with water in all concentrations. Alkaline based chlorine treatment. Effectively penetrates soils. Wetting agents provide greater coverage. Fortified with anti-redeposition agents.</p>			
DIRECTIONS:	<p><u>Light Duty:</u> Dilute ALKACHLOR HD at 1.5 to 2.5 mls per litre water. Brush, mop or spray onto surfaces to be cleaned. Allow the solution to penetrate and soak for 3 - 15 minutes. Flush thoroughly with potable water.</p> <p><u>Medium Duty:</u> Dilute ALKACHLOR HD at 3-5 mls per litre water. Follow instructions as per above.</p> <p><u>Heavy Duty:</u> Dilute ALKACHLOR HD at 5-10 mls per litre water. Follow instructions as per above.</p> <p>* ALKACHLOR HD is approved for use in registered food processing establishments.</p>
