

KEMCHLOR

Technical Data	Chlorinated Degreaser & Cleaner			
	DESCRIPTION:	Semi-clear - opaque, water white, low odour liquid.		
USED FOR:	Kemchlor is a heavy duty chlorinated alkaline cleaner and detergent, use in food processing establishments, schools, restaurants, hotels, motels, institutions, health care facilities, etc., and anywhere that cleaning and sanitizing are required.			
ADVANTAGES:	Kemchlor is built with special penetrants and wetting agents to penetrate into organic masses and soils, carrying the sanitizing chlorine and sequestrants with it. It's potash enhanced detergency and anti-redeposition characteristics, allow for a deeper and faster removal of soils and creating a greater surface area for the active chlorine molecule to oxidize organic materials.			
CONTAINS:	Alkalinity builders, sodium hypochlorite, surfactants, wetting agents, anti-redeposition agents.			
DIRECTIONS:	<p><u>Light duty</u> Dilute Kemchlor at 1 - 7 mls per litre water. Brush, mop or spray on surfaces to be cleaned. Allow solution to penetrate and soak for 3 - 15 minutes. Flush thoroughly with potable water.</p> <p><u>Medium duty</u> Dilute Kemchlor at 10 - 20 mls per litre water. Follow instructions as above. Flush thoroughly with potable water.</p> <p><u>Heavy duty:</u> Dilute Kemchlor at 20 - 40 mls per litre water. Follow instructions as above. Flush thoroughly with potable water.</p> <p>* Kemchlor is approved for use in registered food processing establishments</p>			
	Package Size: (code)	210 L 150816	120 L 150814	22.7 L 150811
