## Urinal & Bowl Disinfectant - Renovator

<b>DESCRIPTION:</b>	Pink viscous liquid, pungent odour.
<b>USED FOR:</b>	Kemsol is a chemical renovator and disinfectant for use on toilet bowls and urinals. Kemsol quickly removes heavy stains from the most abused bowl and urinals; even hard water scale is quickly dissolved. Kemsol is used in schools, hotels, hospitals, nursing homes, office buildings, agri-food processors and industrial plants.
<b>ADVANTAGES:</b>	Penetrates 400% faster than ordinary bowl cleaners to attack rust, scum and scale from inside and outside. Deposits are quickly removed. Kemsol deodorizes so in most cases additional deodorizers are not required. It disinfects with a system of germicides to eliminate the cause of many health hazards that are always present in washrooms. It deep bleaches out yellow stains.
<b>CONTAINS:</b>	Hydrochloric acid, phosphoric acid, surfactants, penetrants, rust inhibitors and germicides.
<b>DIRECTIONS:</b>	<p><b>To Clean &amp; Disinfect:</b></p> <p><b>Toilet Bowls</b> - Not necessary to drain bowl. Hold mop over bowl, pour on 30 ml Kemsol. Swab entire inside of bowl, Flush toilet and rinse swab mop.</p> <p><b>Disinfect</b>- Pour 50 ml into toilet bowl water. Swab bowl, seat and cover with solution.</p> <p><b>Urinals:</b> Hold mop over trap. Pour on 30 ml Kemsol. Swab thoroughly wetting entire surface. Remove screen from trap and pour 30-60 ml into outlet and drain. Swab drain area, replace screen and flush.</p>
<b>APPROVALS:</b>	CFIA - approved
<b>NOTE:</b>	May be used in systems with septic systems
