

PEROXI-SAN

<h1>Technical Data</h1>	Stabilized Peroxide Cleaner / Sanitizer
	<p>DESCRIPTION: Clear, colourless, odourless liquid.</p> <p>USED FOR: Peroxi-San is an accelerated and stabilized peroxide cleaner, designed for use in food processing establishments, schools, restaurants, hotels, motels, institutions, health care facilities, etc., and anywhere that cleaning and sanitizing are required.</p> <p>ADVANTAGES: Peroxi-San is built with special stabilizers and surfactants to penetrate into organic masses, carrying the sanitizing peroxide with it. The synergistic formula allows for a deeper and faster removal of soils and creates a greater surface area for the active peroxide molecule to oxidize organic material.</p> <p style="margin-left: 40px;">Stabilized peroxide. Added penetrants and wetting agents. Biodegrades to O₂ + H₂O. Controls odours. No chlorine residuals.</p> <p>DIRECTIONS: Light Duty: Dilute Peroxi-San at 15 to 25 mls per litre water. Brush, mop or spray on. Allow solution to penetrate and activate for 3-15 minutes. Thoroughly rinse with potable water.</p> <p>Heavy Duty: Dilute Peroxi-San at 40 to 60 mls per litre water. Thoroughly wet surfaces and scrub soils if necessary. Thoroughly rinse with potable water.</p> <p style="margin-left: 40px;">CFIA approved</p>
