## Cleaner Sanitizer Deodorizer

**DESCRIPTION:** Pink coloured liquid with fresh floral odour. A combined cleaning and sanitizing solution with deodorizing characteristics.

**USED FOR:** **Pink Pudder** is designed for cleaning, sanitizing and deodorizing all types of hard surfaces such as floors, walls, counters, food area surfaces, tiles, ceramics, counters, marble, terrazzo, vinyl tiles, stainless, porcelain and other. It quickly cuts through common oils, food grease, dirt, deposits, organics, mold, bacteria growth, and scums.

**TYPE:** **Pink Pudder** is a blend of alcohols, co-solvents, wetting agents, penetrants, emulsifiers and a quaternary ammonium sanitizer.

- ADVANTAGES:**
- Fast acting,
  - Ready to use
  - Non flammable, non butyl formulary.
  - Contains Alkyl Dimethyl Benzil Ammonium Chloride
  - Solubilizes and emulsifies a wide variety of soiling deposits.
  - May be sprayed, brushed, wiped, or mopped on.
  - Deodorizes effectively as it cleans..
  - Phosphate free, Biodegradable.
  - Applied “as-is” Pink Pudder will yield approximately 400 ppm residual of alkyl dimethyl benzyl ammonium chloride

**DIRECTIONS:** Clean heavily or moderately soiled surfaces first with a quality cleaner. Rinse away soaps or detergents with potable water. Spray, wipe, sponge or mop Pink Pudder as-is directly onto hard surfaces. Allow to air dry.  
Interval applications: Apply Pink Pudder directly to surfaces. Ensure surfaces are sufficiently covered with product. Allow to air dry.
