

Technical Data	Quaternary Sanitizer					
	DESCRIPTION:	Clear liquid, colourless, mild odour.				
USED FOR:	General sanitizing, disinfecting, deodorizing, fungiciding and algaciding.					
SPECIAL BENEFITS:	<p>The inherent wetting and penetrating properties enable TRL 31 to contact and kill micro organisms, being effective against both normal and resistant strains of staphylococcus.</p> <p>Odourless. Non-toxic, non-corrosive, safe to skin. Non-volatile. Non staining. Easy to use, economical. Non harmful to any surface safe to water.</p>					
DIRECTIONS:	<p>Sanitizing of Eating & Drinking Utensils: First sink: Wash utensils in normal manner. Second sink: Rinse in clear warm water. Third sink: Use 15 ml TRL-31 per 4.5 liters fresh potable warm water. Immerse utensils in solution. Remove and allow to air dry.</p> <p>Hard Surfaces: Use 15 oz. TRL-31 per 4.5 liters of warm potable water. Wipe previously cleaned surfaces with cloth or sponge saturated with solution. (After cleaning always rinse with potable water.)</p> <p>Sanitizing Hand Dip: Use 15ml TRL-31 per 4.5 liters warm potable water. Dip hands, previously washed and rinsed, into solution. Pat dry with clean hand towel or allow to air dry.</p> <p>Disinfecting, Algaciding, Deodorizing - A/C Tank Units: Introduce 10 ml TRL-31 per 4.5 liters water in wash tanks. Repeat when tank water is being replaced.</p> <p>Air Exhaust Systems & Humidifiers: Add 5 ml TRL-31 per 4.5 liters water in wash tank or humidifier. Add additional TRL-31 until desired effect is achieved.</p> <p>n-Alkyl Benzyl Ammonium Chloride. 10.0 % CFIA approved</p>
