1=only with additional container for auxiliars (4,5x3x3 m)
2= 35 dB (A) incl. sound capsule
3=only natural gas available
4=35 dB(A) not available
5=only 70 dB(A) available
6=only 65 dB(A) available
7=only with Onboard SCR, external SCR catalyst on request (Highline Container), Basic Container with external system
8m/10,6m
8=No SCR-System available
9=only 52 dB(A) available
10=58 dB(A) available too

Approximate weights
MW= Module weight (t)
TW= Transport weight (t)
OW= Operating weight (t)

- for Gas to Power applications container dimensions may vary
- Containerizing for further solutions has to be designed project-specific
- Other configurations than listed above only on request (technical/production manag
- Dimensions are installation dimensions without guarantee. Decisive for transport et
- All enclosures without medium voltage switchgear
