

December 5, 2020

Dear Anusha,

Thank you so much for speaking to the Greenlight Award students today! They enjoyed hearing about your real life experience promoting climate action through your love for insects. By sharing your successes you give other students hope and inspiration to follow through on their goals! We also appreciate your time as a guest judge at the Proposal Showcase. Your critique is on the mark and will help the team to improve their project.

We look forward to working with you in the future at Bedford 2030.

Thank you again, you were great!

Best,  
Gayle, Ellen and the Greenlight Team  
Bedford 2030
