EDUCATIONAL SUPPLEMENTAL RESOURCING SERVICES

Written By : Dr. Elizabeth E. Barkley

The Legislation Behind Supplemental Education Resources

The foundation for supplemental education resources is established under several legislative acts, including:

- The Elementary and Secondary Education Act (ESEA): This federal law emphasizes equitable access to education and funding for low-income and underserved communities, enabling schools to offer programs like after-school tutoring and enrichment activities.
- The Individuals with Disabilities Education Act (IDEA): This act ensures services and support for students with disabilities, including intervention resources and parent training.
- Every Student Succeeds Act (ESSA): ESSA prioritizes accountability and the use of evidence-based practices in education, making funding available for programs aimed at reducing achievement gaps.

These laws create opportunities for organizations like Dove Education Network to partner with schools and communities, fostering educational equity.

DOVE EDUCATION RECOVERY PROGRAMS

The effects of the COVID-19 pandemic on education remain profound, as recent state report cards and national statistics reveal a slow recovery in student achievement. According to the latest data, reading and math proficiency levels are still significantly below pre-pandemic averages, with some districts reporting only 30% of students meeting grade-level expectations. Students with high Adverse Childhood Experience (ACE) scores face even greater challenges, requiring targeted and intensive support to overcome both academic and emotional hurdles.

At Dove Education Network, we are a trusted partner for schools, offering comprehensive and evidence-based recovery solutions. Our programs are designed to address the urgent need for intervention and ensure every student has the opportunity to succeed.

- **High ACE Scores Recovery:** Trauma-informed care and intensive interventions for holistic student support.
- **Wraparound Services:** Seamless on-site support, family engagement, and community partnerships.
- **After-School Programs:** Academic enrichment, social-emotional learning, and targeted tutoring.
- **Scholarship-Based Incentives:** Rewards for academic progress, service, and personal growth.
- **Customized Plans:** Tailored interventions by licensed professionals for measurable outcomes.

Evidence-Based Solutions for Measurable Impact

Our programs are rooted in proven methodologies and guided by the latest research. For instance, studies show that consistent participation in structured after-school programs can improve student grades by 20% and reduce behavioral challenges by 40%. Dove's wraparound model leverages these insights to deliver real results for schools and students.

By addressing both the academic and emotional needs of students, Dove Education Network is committed to closing the post-COVID achievement gap. We partner with schools to rebuild a stronger, more equitable education system that empowers students to thrive.

Let's transform challenges into opportunities—together
