

To whom it may concern:

I am writing to recommend to you the exceptional services of RJM Logistics as a freight broker for all freight of both domestic and foreign origin. Daily, S-K JV utilizes RJM Logistics' expertise for all local and over the road loads. In our (7) years of business together, RJM Logistics has become an invaluable partner with irreplaceable expertise.

RJM Logistics has been very accommodating to us with a sense of urgency appropriate for a capital project of our magnitude. We've developed a relationship of trust and feel comfortable with any move between a 10-pound cross-town hotshot, a large, complicated 200,000-pound cross-country move and a multi-container trans-Pacific move.

John Boone and his staff have always been current on all new laws and regulations. They are always helpful and professional with a great price point. They never fail to come through even when I seem to ask the impossible.

For these reasons (and many more), I strongly recommend RJM Logistics. Feel free to contact me with any questions or concerns you may have.

Sincerely,

Mark Litz  
Purchasing Manager
