**FREE
Kitchen
Design
Service**

We can help plan and design your next kitchen project.

We offer a FREE kitchen design service with CAD drawings

Measuring your kitchen

Follow this checklist to gather all the necessary information to design your new kitchen.

Please use millimetres as the measurement if possible, alternatively inches can be used. Please clearly state:

1. Measure the width, length and height of the room.
2. Measure the size, location and direction of the opening of all doors.
The door frame & architrave must also be included in this measurement.
3. Measure the size of all windows and height from the floor to base of windowsill.
4. Indicate the position of any radiators, meters, boilers etc. and state the dimensions.
5. Indicate the position of gas, water, air vents and any electrical sockets.
6. Indicate on drawing any exterior walls.
7. If existing kitchen appliances are to be incorporated into the new kitchen please state their dimensions.

Important, check all your measurements are correct.
