What is Tungstenite?

Tungstenite is a substantially strong, hard wearing coating that is applied to the reverse of the bath, making it as durable as a cast iron bath but with the warmer and easier to maintain finish of acrylic.

What are the benefits?

- Much stronger than acrylic.
- Retains heat for approximately 30 minutes longer than acrylic.
- Improved bath stability and rigidity.
- Increased durability resulting in a longer lifespan.

Look out for the Tungstenite logo 

Get the best of both worlds and utilise your bathroom space effectively by incorporating a shower bath ↘

Please note: Shower screen comes with rail not knob

Why Choose Aluminium?

- Aluminium conducts heat 5x faster than steel.
- Aluminium is extremely eco-friendly due to being widely recycled.
- Aluminium doesn't rust so it has a much longer lifetime than steel.

Key Features:

- Faster Heat-up
- Low Water Content
- Lightweight
- Contemporary Design
- Textured Surface
- Wall Brackets Included
- Anti-rust
- 20 Year Warranty
