-  Gardens
-  Bars & pubs
-  Indoor / outdoor swimming areas
-  Super yachts
-  Theme parks
-  Shopping centres

# The Aire Outdoor TV Range

## Fanless outdoor enclosure

The Aire Outdoor TV Range ditches the noisy fans common to other products on the market in favour of a fanless temperature control system; an effective solution to prevent the unit from overheating.

## Anti-reflective screen and high brightness panel

The unit's powerful 1500cd/m2 screen means that it is easy to view even in direct sunlight. Glare is also a non-issue due to the anti-glare covering on the front of the screen.

## Super slim design

With a depth of just 69mm (42") and a weight 50% lighter than the average outdoor screen, the Aire Outdoor TV offers one of the most compact and attractive solutions on the market.

## LG FULL HD LED commercial panel

The LED panels we use are from one of the most respected manufacturers of LED panels in the world ensuring we deliver the most reliable and best product on the market to our customers.

# The Durascreen Outdoor TV Range

## Toughened Glass

A robust design and tempered glass makes the Durascreen Outdoor TV Range one of the toughest outdoor commercial solutions on the market, ideal for public areas where vandalism maybe a concern.

## Easy access for maintenance

The front panel of all the Durascreen Outdoor TVs can be unlocked to gain access to the inside for easy servicing or upgrading, making them future-proofed.

## Fan cooling system

The Durascreen Outdoor TV Range uses built-in fans to prevent overheating; an effective solution to ensure smooth running of the screen on the hottest of days.

## Built in speakers

2 x 15W speakers give viewers of the Durascreen Outdoor TV Range a fully integrated audio/visual experience. Audio out is also available if external speakers are preferable.
