# Mazan Acrylic Glass Splashbacks and Wall Panels

## What is Mazan?

Mazan is an affordable, yet dazzlingly beautiful collection of glass effect panels for kitchens, utility rooms, bedrooms, bathrooms and shower rooms. It is the 21st century better alternative to ceramic tiles and glass.

It has a standard range of diverse solid and metallic colours and has a thickness of 4mm. This gives you a fantastic colour intensity and reflection through Mazan's surface and exposed edges – just like traditional glass.

Mazan is environmentally friendly using much less energy during its production than glass. Mazan can also be recycled.

## Benefits of choosing Mazan

- Scratches can be sanded out
- No templating, can be cut and fitted on-site
- Stronger than glass
- Less expensive than glass

An introduction to Aquawall

Aquawall wall tiles provide a great new alternative to traditional bathroom tiles. 100% waterproof, these panels are easily nailed or pasted on to the walls and, if necessary, they can be cut to size with a normal saw. An authentic grout line can be seen and felt, but you no longer need to worry about dirty or crumbling grout as these panels can be easily cleaned. Add to this our stylish aluminium trims and you will have a sleek finish for every bathroom installation.
